THE PRESIDENCY

ANNUAL REPORT 2011/12

THE PRESIDENCY REPUBLIC OF SOUTH AFRICA

Submission of the Annual Report to the Executive Authority

To the President of the Republic of South Africa, Mr Jacob Zuma, I have the honour of submitting to you, in terms of Section 40 of the Public Finance Management Act 1 of 1999, the Annual Report of the Presidency for the period 1 April 2011 to 31 March 2012.

Dr Batandwa Siswana Chief Operations Officer and Deputy Secretary to Cabinet

VISION, MISSION AND VALUES¹

JACOB G ZUMA President of the Republic of South Africa

OUR VISION

Excellence in governance for a better life for all.

OUR MISSION

To realise the strategic agenda of government and enhance the integrity of the state by:

- Ensuring coherence in planning, coordination, policy development and implementation
- Promoting a culture of accountability across the spheres of government through performance monitoring and evaluation
- Communicating progress against the priorities of government
- Mobilising the nation towards a common vision.

OUR VALUES

The Presidency commits itself to the following values, in line with the President's personal commitment.

Dedication

To be resolute, selfless, purposeful and steadfast in all that we do.

Commitment

To persevere as we seek to fulfil our duties and responsibilities.

Discipline To exercise self-control and to work with decorum.

Integrity

Passion

To pursue professionalism, a commitment to ethics, and a focus on justice, fairness and accountability. To be honest, trustworthy, open and accountable.

To strive for personal growth, energy and purpose.

Service excellence

To commit to results orientation, cost effective, superior performance and customer satisfaction. To meet and exceed delivery service standards.

1 The strategic framework included in this report is in line with the strategic plan for 2011/12–2013/14. The current strategic framework, however, has since been changed in line with The Presidency's strategic plan for 2012/13–2014/15, to outline the refined strategic direction of the organisation.

CONSTITUTIONAL, LEGISLATIVE AND POLICY MANDATE

KGALEMA MOTLANTHE Deputy President of the Republic of South Africa

The following are the specific constitutional, legislative and policy directives that set the parameters within which The Presidency operates and from which the institution derives its mandate:

ACT/LEGISLATION	MANDATE		
	The Presidency houses the President and the Deputy President of the		
	Republic. The Presidency therefore exists to service the President and the		
	Deputy President in the execution of their constitutional responsibilities		
	and duties, as articulated in Chapter 5 of the Constitution. Chapter 5 of		
Chapter 5 of the Constitution (1996)	the Constitution defines the President as the head of state and head of the		
	national executive. His primary responsibility is to uphold, defend and respect		
	the Constitution as the supreme law of the Republic, as well as to promote		
	the unity of the nation and that which will advance it. Section 85 of the		
	Constitution confers the executive authority of the Republic on the President.		
Proclamation No. 44(2009) – (the proclamation) in terms of Section 97 of the Constitution	The proclamation resulted in the creation of two new ministries within The		
	Presidency, namely the Ministry of Performance Monitoring and Evaluation,		
	and the Ministry for National Planning. In addition, three functions – the		
	Office on the Status of Women, the Office on the Status of Disabled Persons		
	and the Office on the Rights of the Child – were transferred to a stand-alone		
	Ministry of Women, Children and People with Disabilities.		
	The Minister in The Presidency responsible for Performance Monitoring and		
National Variab Development Assessed Astronomy Astronomy	Evaluation is the Executive Authority for the National Youth Development		
National Youth Development Agency Act (Act No.54	Agency (NYDA). The agency's mandate is drawn from the act, which		
of 2008)	resulted in the merger of Umsobomvu Youth Fund and the National Youth		
	Commission to form the NYDA.		
Dury J. Sauch A. Gira among a second and a hadada 2.4	Brand South Africa, formally known as the International Marketing Council		
Brand South Africa trust gazetted as a schedule 3A public entity in accordance with the Public Finance Management Act (PFMA) (1999)	of South Africa, was established as a trust in 2002, and gazetted as a schedule		
	3A public entity in accordance with the Public Finance Management Act		
	(1999) in October 2006.		
Section 7(5) of the Public Service Act (1994)	The Government Communication and Information System (GCIS) was		
	established as a national department in terms of section 7(5) of the Public		
	Service Act. The executive authority of the GCIS is the Minister in The		
	Presidency responsible for Performance Monitoring and Evaluation.		

CONSTITUTIONAL, LEGISLATIVE AND POLICY MANDATE

TREVOR MANUEL Minister in The Presidency, National Planning Commission

ACT/LEGISLATION	MANDATE	
Media Development and Diversity Agency Act of Parliament (Act No.14 of 2002)	 The Media Development and Diversity Agency (MDDA), a public entity within GCIS, derives its mandate from the Media Development and Diversity Agency Act. It enables historically disadvantaged communities and individuals inadequately served by the media to gain access to the media. Its beneficiaries are community media and small commercial media. The agency's executive authority is the Minister in The Presidency responsible for Performance Monitoring and Evaluation. 	
Statistics Act (Act No.6 of 1999)	The Presidency also draws its mandate from the section in the proclamation that resulted in the transfer of legislation, powers and functions entrusted to the Minister of Finance in terms of the Statistics Act to the Minister in The Presidency responsible for the National Planning Commission. The Minister in The Presidency responsible for the National Planning Commission is therefore the executive authority for Statistics South Africa (StatsSA).	
Revised Green Paper on National Planning	 The revised Green Paper on National Planning gives expression to one of the key responsibilities of The Presidency. Under the revised paper, the National Planning Commission has the key priorities of developing a long-term vision for South Africa and a national development plan. The long-term vision, Vision 2030, is to become a plan around which all government programmes, priorities and budgets can be shaped to achieve greater policy coherence. All sectors of society are also expected to contribute towards achieving Vision 2030. The revised green paper also sets out the role and purpose of the National Planning Commission, describes how it would work and interact with government and the broader society, and presents an institutional framework to support the work of the commission. 	
The Green Paper on Performance Monitoring and Evaluation	 The Green Paper on Performance Monitoring and Evaluation sets out the work of the Minister in The Presidency responsible for Performance Monitoring and Evaluation, the executing authority for this function. Under the Minister's guidance, the Department of Performance Monitoring and Evaluation (DPME) is responsible for coordinating the development of the delivery agreements and plans for the 12 outcomes that are government's priority areas in the medium term. The department is also responsible for ensuring that progress on the implementation of the delivery agreements is monitored and advising the President accordingly to ensure informed decision making on service delivery. 	

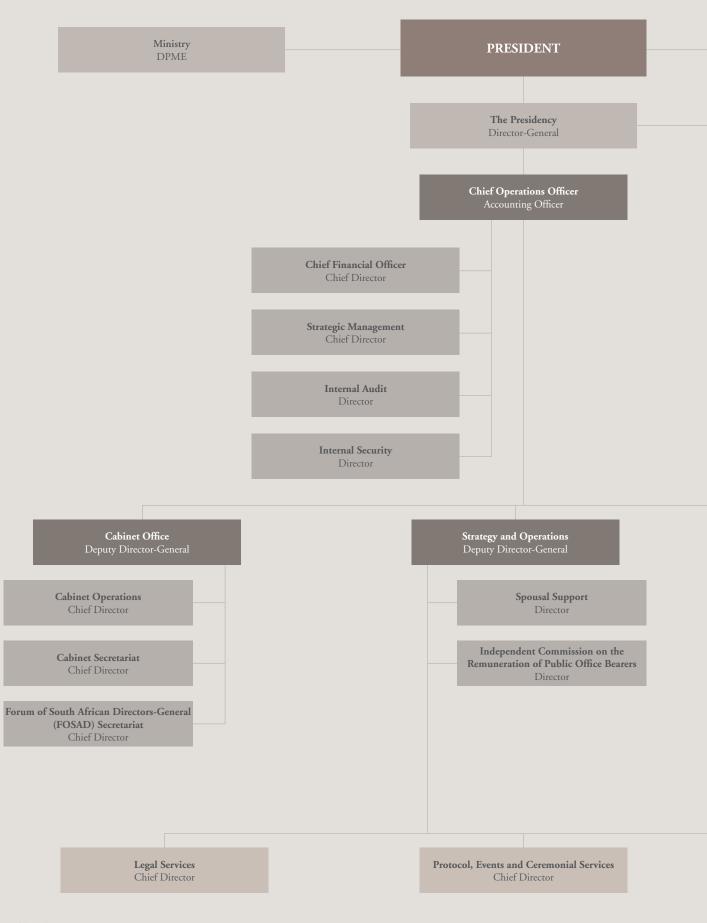

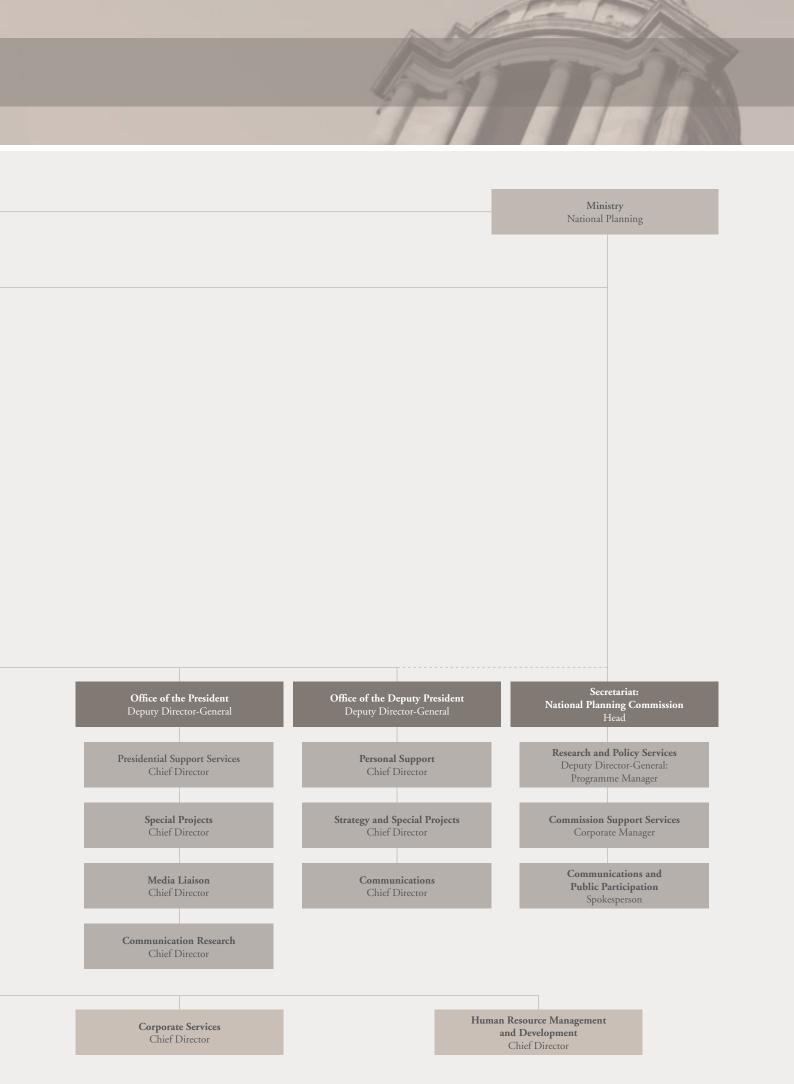

NON-ENTITY-SPECIFIC LEGISLATION

Non-entity-specific legislation also governs the operations of the organisation, which include among others:

- Public Finance Management Act (1999)
- · Public Service Act (1994)
- · Labour Relations Act (1995)
- · Employment Equity Act (1998)
- · Basic Conditions of Employment Act (1997)
- · Skills Development Act (1998)
- · Promotion of Access to Information Act (2000)
- National Key Points Act (1980)
- · Occupational Health and Safety Act (1993)
- · Preferential Procurement Policy Framework Act (2000)
- · Government Immovable Asset Management Act (2007)
- · Remuneration of Public Office Bearers (1998)
- · Minimum Information Security Standards (1996).

INTRODUCTION: MINISTER

COLLINS CHABANE

Minister of Performance Monitoring, Evaluation and Administration

November 2011 marked the mid-point of this administration's term in office. As such, it was also a period of reflection as we reviewed our work and our commitment to making a difference in the lives of our people. During this period, The Presidency needed to report back and provide an account to citizens on whether government is making progress on the mandate it received for this electoral term.

To this end, government has produced the *Midterm Review of the Priorities of Government 2012* report, which gives an account of how government is performing against our 12 priority outcomes. The report assisted the President in executing his responsibilities of leading and coordinating the work of the national executive. Through the DPME, the President has been able to monitor the performance of government and promote a culture of accountability.

The report indicates that commendable progress against the targets for the delivery of services has been made. Captured below are some of these achievements that give an account of how our new way of coordinating government work is beginning to produce results.

The Presidency's responsibilities have been increasing since 2009, particularly with regard to international relations. This is due to the country's changing role on the world stage. South Africa has assumed membership in the Brazil-Russia-India-China-South Africa (BRICS) group of emerging economies and it has mediated conflicts on the African continent. South Africa has also made a conscious effort to move towards a green economy as part of the country's long–term plan towards sustainable development, while mitigating the effects of climate change. In the year under review, South Africa hosted the United Nations' Climate Change Conference COP 17/CMP7. The South African government is committed to engaging in international climate change negotiations to secure a binding, multi-lateral international agreement that will ensure that climate change does not negatively impact our future.

The Presidency also moved Brand South Africa, formerly the International Marketing Council, from being an entity within GCIS to one reporting to The Presidency. This was to allow the President to lead the country's brand. The Presidential Infrastructure Coordinating Commission (PICC) and Job Creation Commission were formed. These increased responsibilities have had implications for The Presidency's budget. The Presidency, in this annual report, gives an account on the progress it has made in promoting and facilitating the coordination of a coherent government and in achieving the realisation of national priorities. Detailed reports on how government is delivering against its priorities are available on The Presidency's website. This ensures that all South Africans are able to hold government to account.

It is my pleasure to table The Presidency's annual report for the 2011/12 financial year. We are also particularly pleased that we have received an unqualified report from the Auditor-General. We are, however, mindful of the emphases of matter raised by the Auditor-General. We will work with the Auditor-General of South Africa and the National Treasury to ensure that all matters raised are addressed. As The Presidency is at the forefront of building a performance-oriented state, it is important that we consistently receive a clean audit report without any emphases of matter.

We are addressing the financial constraints we have experienced during the period under review with the National Treasury. This will allow us to operate optimally and help the President fulfil his constitutional mandate.

In presenting this report, let me take the opportunity to congratulate the Director-General in The Presidency, Dr Cassius Lubisi, the Chief Operations Officer, Dr Batandwa Siswana, management and all staff for their efforts.

We also thank President Jacob Zuma, Deputy President Kgalema Motlanthe, Minister Trevor Manuel and Deputy Minister Obed Bapela for their sterling leadership.

Ohm Collins Chabane Minister in The Presidency: Performance Monitoring, Evaluation, and Administration

FOREWORD: DIRECTOR-GENERAL

R CASSIUS LUBISI, PhD Director-General and Secretary of the Cabinet

The 2011/12 financial year is the mid-point of the 2009–2014 electoral periods, marking yet another milestone for government. Great strides were made in changing the way government works to further improve the quality of service provision to citizens.

During the year, The Presidency conducted service-delivery visits across the country to test government's delivery record on the ground. In addition to signing performance agreements with Ministers, a process initiated in 2010, steps were taken to increase the accountability of heads of departments and senior managers through the introduction of the Forum of South Africa Directors-General (FOSAD) plan to improve service delivery through the way government works, which was approved by Cabinet. The plan seeks to overcome administrative and managerial inefficiency and ineffectiveness, which are within the powers of accounting officers to address. It entails 22 commitments for improving service delivery and is being implemented in earnest. It is within the powers of directors-general and heads of department to achieve all of the commitments in the plan. FOSAD is monitoring the implementation of the plan's deliverables, and provides the President and the Presidential Coordinating Council with quarterly reports on progress and challenges.

During the year, The Presidency took the lead by volunteering to pilot the management performance assessment tool designed by the DPME. The tool assesses the state of management practices in public service organisations. The results of the assessment were used to develop improvement plans to address identified areas of weakness.

During the year under review, Cabinet established the PICC, which will oversee the massive infrastructure development plan announced by the President in the State of the Nation Address in February 2012.

The Presidency is the strategic centre of government. This report provides an overview of what The Presidency has achieved in this respect over the 2011/12 financial year. I would like to take the opportunity to thank all Presidency staff for the sterling work undertaken in the year under review.

mm

R Cassius Lubisi, PhD Director-General in The Presidency and Secretary of the Cabinet

The Presidency plays a key role in the management of government. It directs the manner in which government plans, implements, monitors and evaluates its work.

Further changes to the administration of The Presidency were made during the year under review. These include shifting the function of the Presidential Hotline to the DPME, and the relocation of Brand South Africa to The Presidency. Our principals also now lead the newly established PICC and the short-term Job Creation Commission. These structures are chaired by President Jacob Zuma and Deputy President Kgalema Motlanthe, respectively.

In the current financial year, The Presidency finalised a new budget programme structure, aligned to the new strategic direction of the organisation. The Presidency now has three budget programmes: Administration, National Planning, and Auxiliary and Associated Services.

As with other government departments, The Presidency has been under financial pressure for some time. Accordingly, it has continued implementing significant cost-cutting measures. In 2011/12, senior managers in The Presidency focused on improving work processes and systems to ensure operational efficiency, fiscal discipline, and economic and efficient use of the allocated budget. They also focused on demonstrating a commitment to trimming costs and ensuring good financial conduct.

However, the budget allocations of The Presidency have not grown in proportion to its increased domestic and international obligations and responsibilities, especially in the context of the increasing international stature and leadership responsibilities of the President. We hope to rectify this in the coming year and have been working with the National Treasury on a new funding model based on a detailed review of the baseline allocation for The Presidency.

While government programmes, policies and more detailed explanations of the development plans are available in specific government department reports, this annual report describes our efforts to streamline the work we do, mainly from the perspective of The Presidency's role in promoting and facilitating the coordination of coherent governance and achieving the realisation of national priorities.

I would like to thank the top management team and Audit Committee. See page 91 of this report for their guidance, which has contributed to the satisfactory audit outcome achieved by The Presidency. Our work, however, is not yet done. Over the coming year, we will focus on improving compliance and strengthening identified weak internal controls.

Dr Batandwa Siswana Chief Operations Officer and Deputy Secretary of the Cabinet

SECTION A GOVERNMENT'S PROGRAMME OF ACTION OUTCOMES – SUMMARY OF KEY ACHIEVEMENTS AND CHALLENGES FOR 2011/12

GOVERNMENT'S PROGRAMME OF ACTION OUTCOMES

SUMMARY OF KEY ACHIEVEMENTS AND CHALLENGES FOR 2011/12

The current administration has passed its halfway mark and is moving into the second half of its term. At the beginning of the term, government identified five strategic priorities: improving the quality of education, ensuring that South Africans are safe and feel safe, improving the quality of healthcare, promoting rural development and land reform, and working towards jobcreating, inclusive economic growth.

Government spent the first few months in office translating these priorities into implementable plans and programmes. Part of this work included the President signing performance agreements with Ministers. The performance agreements outlined what each Minister is expected to achieve. Ministers entered into delivery agreements with their counterparts in provinces and municipalities to give effect to the agreements they had signed with the President.

SUMMARY OF KEY ACHIEVEMENTS AND CHALLENGES

Much work has been done in each of the priority areas. Progress is being made in education, despite the significant challenges that remain. The matric pass rate, for example, has been steadily increasing. The pass rate was 62.6 percent in 2008, 60.6 percent in 2009, 67.8 percent in 2010 and 70.2 percent in 2011. However, overall average marks are not improving and the quality of passes remains a challenge.

Owing to the introduction of the annual national assessments system, government is now able to objectively assess the health of the education system below grade 12. All learners in grades 1 to 6 are now being tested annually in literacy and numeracy using a standard national test. This is a massive undertaking as it requires assessing over 6 million learners in 19 000 schools.

During the year under review, government printed and distributed 24 million workbooks in all official languages for grades 1 to 3, and in English and Afrikaans for grades 4 to 6. This is an important step towards increasing each learner's access to quality written material regardless of where they attend school.

Government also increased access to higher education programmes by expanding spaces and options available at further education and training colleges and universities. Introducing the national certificate vocational system in 2011 also marked a significant milestone in developing alternative avenues for skills development. It resulted in the creation of additional opportunities for 164 713 learners at further education and training colleges.

During the year under review, 30 117 unemployed learners entered into learnerships against a target of 17 531 for 2011. Similarly, the target for workers entering learnerships was exceeded, with 19 192 workers entering learnerships against the target of 13 243. A total of 11 335 learners entered the artisan training system, with 8 102 learners, from a target of 10 000, passing their trade tests and obtaining their trade certificates. The trade test pass rate increased from 41 percent in 2010 to 57 percent in 2011.

Work is progressing towards the establishment of two new universities in Mpumalanga and the Northern Cape. Between 2011/12 and 2013/14, R300 million was allocated towards establishing these new institutions. Work has begun on identifying possible sites for each institution and the physical design of the universities.

There has also been progress regarding health. For instance, the rate of new HIV infections has decreased from 1.4 percent to 0.8 percent in the 15-to-24 age group. Nationally, there has been a reduction in mother-to-child transmission of HIV from about 8 percent in 2008 to 3.5 percent in 2011. This means that annually, over 30 000 babies are protected from infection and poor health.

This turnaround can be attributed to an acceleration and expansion of HIV awareness and prevention campaigns, counselling and testing, treatment, care and support. Since the presidential launch of the HIV counselling and testing campaign in April 2010, for example, the number of people tested has increased substantially, confirming improvements in health-seeking behaviour among South Africans. By mid-2011, 15.1 million people had been tested and, since then, a further 4.8 million people were tested.

Tuberculosis (TB) control and management is improving, with more than 8 million people screened during the HIV counselling and testing campaign. Of these, 1 million were referred for further diagnosis and management at relevant health facilities. The number of people who default on their TB treatment declined from 7.9 percent in 2009 to 6.5 percent in 2010 and, for the first time, the national TB cure rate reached the 70 percent mark in 2010. Despite these significant strides, much work is required to achieve the 85 percent cure rate recommended by the World Health Organisation. Government has also focused on developing and implementing a strategy that promotes job creation and inclusive economic growth. It developed a New Growth Path, a strategy for inclusive growth and job creation. Government has also reached a series of stakeholder agreements regarding the implementation of elements of the New Growth Path, notably in education and skills development, green growth and local procurement. Progress has been made in measuring income distribution and developing a macroeconomic framework to support sustainable growth. Currency volatility and inequality remain significant challenges.

The focus on labour absorption has helped develop policy in areas like mineral beneficiation. Significant procurement reforms to promote employment were completed in December 2011. In addition, the Jobs Fund was established and is operating.

A multipronged strategy for youth employment was discussed and supported, but is not yet fully implemented. For the remainder of the term, agreeing on and implementing measures to reduce youth unemployment substantially should become one of the highest priorities.

To underline the importance of infrastructure development for economic growth and job creation, Cabinet established the PICC to spearhead government's efforts in infrastructure development. The PICC has, at the core of its infrastructure plan, strategic infrastructure projects (SIPS). Work is already under way to implement these.

With regard to improving the country's international competitiveness, there has been definite progress in the implementation of government's industrial policy action plan and job drivers in some sectors, including minerals beneficiation, automobile manufacturing and clothing.

Government is also making progress in rural development and land reform. Since 2009, when the current administration assumed office, over 823 300 hectares of land have been acquired and allocated to 20 290 beneficiaries. This rate of land redistribution is an improvement over previous years and is an indication that our systems are improving.

Introducing the national rural youth service corps in 2010 has contributed to youth employment and skills development in rural areas. Through this programme, partnerships were forged with 35 further education and training colleges countrywide to train 5 340 unemployed youths. The training covered various civil

GOVERNMENT'S PROGRAMME OF ACTION OUTCOMES

SUMMARY OF KEY ACHIEVEMENTS AND CHALLENGES FOR 2011/12

and construction programmes, and leadership. The programme profiles rural households in the comprehensive rural development programme nodes.

Government has made strides in its battle against crime. Between 2009/10 and 2010/11, overall serious crime decreased from 3 872 to 3 680 per 100 000 of the population. This represents a reduction of 5 percent. In the same period, the murder rate came down from 34 to 32 per 100 000, or 6.5 percent, and attempted murder fell from 35 to 31 per 100 000, or 12 percent. Carjackings declined from 28 to 21 per 100 000, or 24 percent, while house robbery dropped from 38 to 34 per 100 000, 11 percent.

These successes are also borne out by the results of the 2011 Victims of Crime Survey, conducted by StatsSA. The survey found that over 40 percent of households felt that the level of both violent and non-violent crime had decreased in their area of residence between 2008 and 2010. Of those surveyed, about 60 percent of households were satisfied with the way police and the courts were doing their work. About 32.1 percent of households felt that levels of crime had increased compared to 2007, when 57.1 percent felt that crime had increased. On personal safety, 88.2 percent and 27 percent felt safe walking in their areas during the day and at night, respectively, compared to 2007 when the response was 76 percent and 23 percent, respectively.

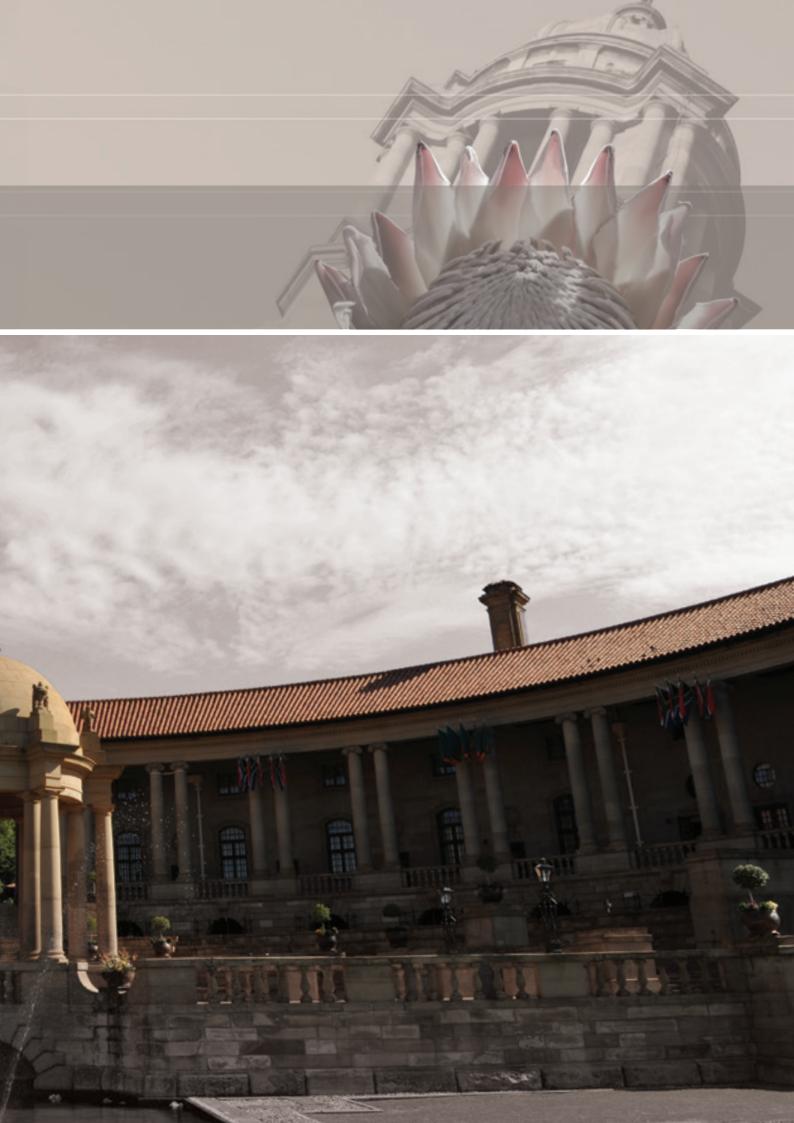

Despite the progress shown by these indicators, serious challenges remain for our society as a whole. Some of the challenges arise from serious weaknesses in government itself. The National Planning Commission clearly articulated some of these in the diagnostic report it released in June 2011. Some of the problems arise from difficult global economic conditions that began during the course of the current administration. All things considered, the progress that has been made points to a concerted effort by government and the people of South Africa to work together to improve the lives of all citizens.

GOVERNMENT'S PROGRAMME OF ACTION OUTCOMES SUMMARY OF KEY ACHIEVEMENTS AND CHALLENGES FOR 2011/12

SECTION B THE WORK OF THE PRESIDENCY 2011/12

This section provides an overview of the work performed by The Presidency to achieve government's agenda for the period under review. It thematically outlines the development and progress made in realising the two-fold objectives of the organisation as outlined in the 2011–2014 Strategic Plan of The Presidency.

These objectives are:

- To provide effective leadership, strategic management and administrative support services to the principals and branches of The Presidency in fulfilment of The Presidency's mission and mandate.
- 2. To develop the country's long-term vision and national strategic plan, and contribute towards better outcomes in government through better planning, better long-term plans, more policy coherence and clear articulation of long-term goals and aspirations.

Strategic objective 1:

To provide effective leadership, strategic management and administrative support services to the principals and branches of The Presidency in fulfilment of The Presidency's mission and mandate.

OVERSIGHT AND FACILITATION OF INTEGRATED GOVERNMENT STRATEGIC PLANNING

The Presidency serves as a centre for strategic leadership and coordination in government, ensuring the implementation of the electoral programme so that all plans, resources and efforts within government are properly aligned towards the achievement of intended objectives. The Presidency therefore shapes the agenda of government by influencing the agendas of bodies such as Cabinet, the presidential councils, FOSAD and other coordinating structures. The Presidency also ensures that the plans and programmes of departments reflect the strategic priorities of government.

A key performance area under this strategic objective is, therefore, the effort by the President, Deputy President and Ministers in The Presidency to ensure oversight and leadership over the planning cycle and structures of government. For the reporting period, The Presidency continued to strategically manage the diaries of the principals to ensure their effective leadership in the planning cycle.

At the end of 2010/11, the FOSAD secretariat was relocated from the disbanded Policy Coordination and Advisory Services branch of The Presidency to the Cabinet Office, thus aligning the two functions to render better strategic and administrative support to the key decision-making structures of government. During the year under review, The Presidency focused on streamlining the processes and systems in these areas.

The Presidency successfully implemented the Cabinet and Cabinet Committee programme for 2011/12. The programme provided the requisite strategic and administrative services to enable Cabinet to plan, decide and ensure the implementation of the agenda of government.

The FOSAD secretariat also continued to support the Director-General in The Presidency in his capacity as the chairperson of FOSAD. This allowed him to provide leadership to the top administrative echelon of government on the strategic priorities of government.

Responding to the President's appeal to all heads of department in national and provincial government to find ways to improve the performance of the public service, FOSAD adopted and put into effect a FOSAD plan of action. The plan includes 22 regularly monitored commitments that seek to improve public service delivery.

FOSAD has intensively monitored the responsiveness of departments to the anti-corruption hotline and to requests from Chapter 9 institutions. In addition, FOSAD monitored the promptness of submission and quality of strategic plans, annual performance plans and annual reports tabled in Parliament.

FOSAD has also regularly monitored the promptness of payment to suppliers in terms of government's undertaking to do so within 30 days. National and provincial departments are required to submit monthly reports to the National Treasury, giving details of all the invoices that have not been paid within 30 days and the reasons for this. The DPME presents bimonthly progress reports on this issue to FOSAD.

The Presidency also facilitated and coordinated the President's engagement with and leadership of critical statutory bodies that he chairs, such as the President's Coordinating Council and the Black Economic Empowerment (BEE) Advisory Council. The President's Coordinating Council is a critical institution for coordinating government's plans and programmes across the spheres of government. The BEE Advisory Council provides guidance and overall monitoring on the state of broad-based black economic empowerment (B-BBEE) performance in the economy, making policy recommendations to the President to address challenges in the implementation of this transformation policy.

In July 2011 Cabinet took a decision to establish the PICC to spearhead and coordinate infrastructure development across the nine provinces in South Africa. The PICC is led by the President of the Republic and its members include the Deputy President, several Ministers, and all Premiers and metro Mayors. The PICC undertook its work in earnest after its establishment and developed an Infrastructure Development Plan for South Africa. The core of the Infrastructure Development Plan are 17 SIPs, which range from the development of the northern mineral belt around the Limpopo and Mpumalanga provinces; the logistics corridor linking KwaZulu-Natal, Free State and Gauteng; a variety of infrastructure projects in the south-eastern corridor covering especially the Eastern Cape Province; as well as the development of the Saldanha-Northern Cape development corridor. Infrastructure development in 23 district municipalities, especially those in poor and rural areas, has also been prioritised by the PICC.

Several SIPs have been launched over the past few months. SIP 1, aimed at unlocking the northern mineral belt by integrating rail, road, water and energy projects across three provinces, will be launched in April. SIP 7, the integrated urban space and public transport programme, which consolidates the 12 largest urban areas in the country and will promote better urban planning and public transport systems, will be launched in May. SIP 5, the Saldanha and Northern Cape development corridor, which incorporates mining, industrial and energy projects across two provinces, will be launched in May. SIP 6, integrated municipal infrastructure projects, which will provide basic services to millions of people in the poorest 23 district municipalities in South Africa, will be launched in May.

The establishment of the PICC was coupled with the reformulation of the terms of reference of the previous Anti-poverty Inter-Ministerial Committee to establish the short-term Job Creation Commission, led by Deputy President Kgalema Motlanthe.

In addition, phase 2 of the Dube Trade Port, now part of the Durban-Free State-Gauteng industrial and logistics corridor, and the Ngqura port and trans-shipment hub, part of the SIP for the south–eastern node, were launched in March 2012.

The Presidency provides support to the Deputy President in his capacity as the Leader of Government Business, a role that sees him effectively shape relations between the executive and legislative arm of government. In this regard, during 2011/12, The Presidency consolidated the annual legislative programme, which was approved by Cabinet and prioritised for submission to Parliament.

To improve the quality of legislation, The Presidency is in the process of mainstreaming regulatory impact assessment into the legislative and policy-making processes within government. Regulatory impact assessment aims to assist policy-makers and decision-makers in the design, implementation and monitoring of improvements for regulatory systems by minimising the risks of unintended consequences, including unnecessary costs from implementation and compliance, as well as from unanticipated outcomes.

Public participation and stakeholder management

The President and Deputy President undertook several engagements with critical stakeholders aimed at promoting an inclusive agenda for development in South Africa in 2011/12. Having convened a Presidential Summit on Job Creation with leaders of the major trade unions, the President also convened a Presidential Summit on Job Creation with business leaders in April 2011. The purpose of the summit was to galvanise major stakeholders in our society to contribute towards the goal of massive job creation in the country.

The President also held separate meetings with Business Unity South Africa, the Black Business Council, the South African Council of Churches, leaders of the Chapter 9 institutions, the Human Rights Commission, and several other stakeholder groups. Meetings with these bodies were part of the President's programme of interacting with stakeholders in society in order to forge a common agenda of inclusive development for South Africa.

The Presidency understands the importance of communicating with South African citizens. Both the Private Office of the President and the Office of the Deputy President have communication teams. The teams focus on each principal's strategic agenda and provide a full range of communications support services, including speech drafting, public relations, media planning, media liaison and, where required, event management. They also serve as scribes for proceedings in the calendar of public events and sector engagements of the President or Deputy President. These often yield reports on matters to be followed up by The Presidency or relevant government departments.

During the period under review, the communication units ensured that programmes of the President and Deputy President and government priorities were communicated. The units also ensured that the President and Deputy President were visible to the public through the media.

In addition to the scheduled press conferences for all incoming state visits, the President also made himself available for one-on-one wrapup interviews with the South African Broadcasting Corporation at the end of each state and working visit to foreign countries. He also gave a number of in-depth interviews with radio and television stations, as well as individual journalists and newspapers. This

included CCTV, of the People's Republic of China; *The New Age breakfast* interviews; e-News; Ukhozi FM; East Coast Radio; Independent Newspapers; *Business Times* and *City Press*.

The President and Deputy President also held international and local engagements and delivered addresses on behalf of the South African government and its people at important international forums such as BRICS, the India-Brazil-South Africa Dialogue Forum, the World Economic Forum, the United Nations and the African Union.

The communication units also distributed media statements and the public schedules of, and media advisories for, the President and Deputy President through The Presidency database.

The President held seven media conferences on different topics, including the 6th meeting of the African Union Ad–Hoc High-Level Committee on Libya; incoming state visits by the Presidents of Ghana, Nigeria and Benin; and various domestic issues.

During the period under review, the offices also used social media, namely Facebook, Twitter and YouTube, to increase the level of interaction between The Presidency's principals and communities.

Communications research

The communication units provided research for speeches. They also supported the President in sending out messages in line with the administration's message of being a caring and compassionate government. These included the President sending out condolence statements, delivering eulogies at official funerals, and wishing members of religious communities well on their important dates, such as the Muslim Holy month of Ramadaan and the Jewish Passover. Monitoring of performance and oversight of government policies and programmes

The current government has placed emphasis on changing the way the state works to improve service delivery. The DPME in The Presidency was set up so that government has the capacity to monitor and evaluate the progress it makes and improve its performance.

As part of the organisation's mandate to monitor and evaluate the implementation of government policies and programmes, President Zuma undertook performance monitoring and evaluation visits to different provinces during the financial year. These visits monitored government's performance in the five priority areas, but at times covered other areas of government. The President focused on one priority per province on each visit.

During 2011/12, the President conducted five performance monitoring and evaluation visits to three different provinces:

- $\cdot~$ Eastern Cape (Bisho) on 7 June 2011, focusing on education.
- Limpopo on 7 July 2011: The President visited two district hospitals, Lebowakgomo (Capricon District) and Siloam (Vhembe District), focusing on health.
- Eastern Cape (Port Elizabeth/Uitenhage) on 28 September 2011, focusing on job creation.
- Eastern Cape (Mthatha) on 29 September 2011, focusing on local government administration.
- Free State on 4 October 2011: The President visited projects in two areas, Diyatalawa and Makgolokoeng (both in Thabo Mofutsanyane District), focusing on rural development.

The President was accompanied during these visits by Ministers relevant to the focus area. A preparatory task team comprising relevant government officials was also established to prepare for the visits.

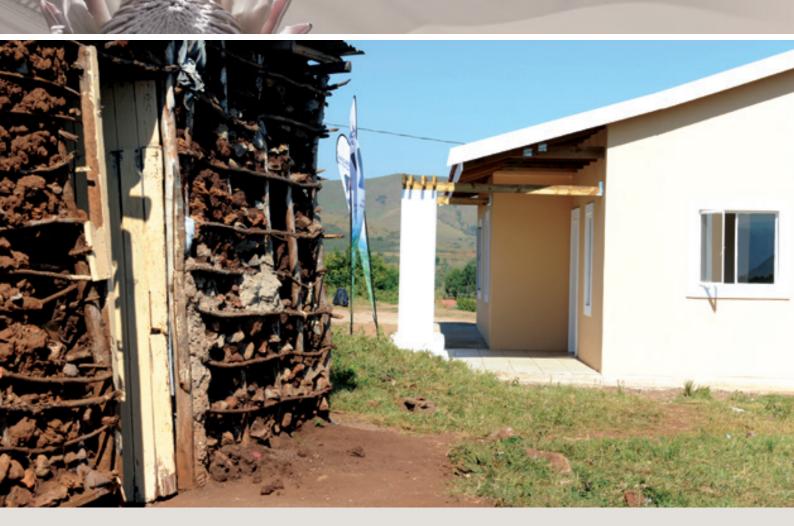

In January 2010, government adopted the outcomes-based approach. The approach set the 12 strategic outcomes – with measurable outputs, key activities and targets – against which the performance of the administration will be measured at the end of the medium term. The President had in previous years signed performance agreements with Ministers. During the year under review, the President continued to hold monthly meetings with Ministers to discuss progress towards the outcomes contained in the performance agreements. Over the coming two years of this government's term of office, the President will place greater emphasis on engagements with Ministers, especially those who coordinate key outcomes.

The President has established a range of bodies to address specific strategic priorities arising from key challenges faced by the country. He has also established various inter-ministerial committees as coordinating structures to oversee and monitor progress of these bodies, as well as for specific government projects. These include the Human Resource Development Council (HRDC), the Energy Advisory Council (EAC), and the South African National Aids Council (SANAC). The responsibility for these bodies has been formally delegated to the Deputy President.

The HRDC, comprising representatives of government, business, labour, and civil society organisations, continued to submit quarterly reports on the progress on the work of the council, which is based on a long-term strategy for the development of the country's human resource capacity and skills sbase. In 2010/11, the HRDC, chaired by the Deputy President, launched the human resource development strategy and work plan. The council has since focused on establishing technical working groups to oversee the implementation of the strategy. In this time, the council has made progress in the following areas: strengthening foundational learning, strengthening and supporting further education and training colleges to expand access, producing intermediate skills (artisans in particular) and professionals, promoting partnerships in research and development, and developing a framework for improving worker education.

Under the leadership of the Deputy President, the EAC previously reported on efforts to revive the council and the development of a programme of action to address issues of energy supply and conservation. The Deputy President presided over various energy inter-ministerial committee meetings within government, as well as those of the council.

While challenges to the supply of energy and electricity remain, the country has collectively developed interim solutions. During 2011/12, government took decisive action to create energy security by diversifying the energy resource base, accelerating access to energy, reducing greenhouse emissions and building a competitive 21st century clean energy economy. These initiatives also contributed to employment creation. Government is promoting awareness of the need for consumers to conserve energy through the 49M campaign, which is being implemented by Eskom.

The Integrated Resource Plan 2010–2030, which sets out the country's electricity supply plan, provides for the up-scaling of wider energy resource mix, which includes a focus on exploring nuclear energy. In November 2011, Cabinet approved the establishment of the National Nuclear Energy Executive Coordination Committee to oversee the rollout of the nuclear-build programme. The committee is the authority for coordinating inputs, monitoring and ensuring general oversight as the country prepares to expand its nuclear energy programme.

During the year under review, government reported that Eskom had, since the inception of the electrification programme in 1991, reached its target of providing electricity to 4.2 million homes.

SANAC, which is chaired by the Deputy President, continued to report quarterly on the development of the new national strategic plan (NSP) on HIV, Sexually Transmitted Infections (STIs) and TB. The Presidency fully supported the continuing national HIV counselling and testing campaign.

During the campaign period, millions of people were tested and offered counselling across the country. Similar areas of success

included the extension of the provision of anti-retroviral treatment and the rollout of the Prevention of Mother to Child Transmission Programme.

In the previous financial year, SANAC underwent a number of reviews as part of the final review of the 2007–2011 NSP for HIV/AIDS and STIs. The review of the governance framework highlighted some weaknesses in the coordination and monitoring of government's response. An ad-hoc governance committee has since recommended that the framework be made more robust and comprehensive to ensure accountability, transparency, inclusivity and meaningful participation by all sectors that serve on the structures of SANAC. The framework will also enable government to coordinate its programmes across all levels of government.

During the year under review, government focused on developing the new NSP for HIV, STIs and TB. People from various sectors of society have made inputs into this important strategic document, which now serves as the roadmap towards the achievement of government's vision of an AIDS-free generation in South Africa. Surveys and reviews have enabled government to more accurately identify those who are at risk, the behavioural and structural factors that increase vulnerability, and the social drivers of the epidemic. Government has used this information to develop the 2012–2016 NSP and prioritise those areas where interventions can make the greatest impact.

Research has confirmed that the following categories of people are more susceptible to HIV and TB: young women and girls, those with low or no education, people living in informal settlements, those in rural areas, migrant workers, people working in mines, prisoners, and those living along major long-haul truck routes.

Government believes that this is an epidemic of deprivation and that the social determinants of these epidemics reflect the developmental challenges that our young democracy faces. The interplay between social, economic, cultural and other factors continues to present challenges and, as progress is made in one area, new problems arise in other areas.

Yet, there is no doubt that the country is slowly winning the fight against the epidemic. This is demonstrated by the high number of people who are now receiving treatment, government's successful HIV counselling and testing campaign, the improvement in the detection of new TB infections and the decline in the transmission of HIV from mother to child.

Government has shifted the way it thinks about the response to the epidemic and has recognised the need to expand various interventions beyond the health sector to all sectors, departments, institutions, organised structures, communities, households and individuals. Furthermore, government is of the view that prevention of new HIV and TB infections is not limited to the use of technologies and commodities such as condoms. Rather, it believes prevention traverses all those aspects of life that promote dignity, respect for life, and the creation of a society that is tolerant and cares about children and women, and protects those who are vulnerable and marginalised.

Government will shortly make a call for nominations of representatives to serve on the SANAC Plenary as a body of sector representatives whose main aim is to advise government on how best to achieve the objects contained in the NSP on HIV, STIs and TB. Government will prioritise the development and implementation of a multi-sectoral monitoring and evaluation framework that will contribute to the efforts of the DPME in The Presidency. Leadership of the national agenda and discourse on nation building, social cohesion and national identity

Nation building and social cohesion are of fundamental importance to the country's future. The Constitution enjoins all who live here to transform the country into a united, non-racial, non-sexist, democratic and prosperous society.

Since 1994, much effort has been put into enacting legislation and introducing policies to redress racial discrimination and other imbalances of the past. Yet given the complexity of the country's history, government recognises that the task of social cohesion is an ongoing process of developing a community with a shared vision, shared values and shared challenges. In that community, people live in peace and harmony, are gainfully employed and are free of deprivation in terms of basic needs such as food, water and shelter. They also enjoy basic human rights such as freedom, democracy, culture, language, and spiritual and intellectual stimulation.

While the task of building a caring society is society's collective responsibility, The Presidency sees itself as having a special role in this task, given its symbolic and constitutional functions. Accordingly, The Presidency continues to implement a multidimensional programme for nation building and social cohesion involving all the political principals. These encompass symbolic actions and campaigns promoting economic and social development, democracy, a sense of common identity, social wellbeing and belonging in a multicultural, tolerant and caring society.

Due to unemployment and other circumstances, many South African households are trapped in a cycle of poverty, which poses challenges to the stability of South African society. Often citizens are unable to obtain immediate assistance and are not aware of where to go for help.

In this context, there was a need for government to provide poverty assistance. To this end, the Deputy President continues to lead government's targeted short-term assistance packages as part of broader anti-poverty measures and a coordinated programme on poverty. These comprise the War on Poverty Campaign and the comprehensive anti-poverty strategy. The War on Poverty Campaign, first piloted in 2008/09, aims to improve the delivery of services to poor households and monitors household progression out of extreme poverty.

Through focused intervention, government identified 1 128 of the most deprived municipal wards, where an estimated 3 million households, comprising an estimated 15 million people, live in extreme poverty. The campaign has been rolled out and government is on target to reach all identified wards by 2014. The focus during the provincial anti-poverty visits has been an identification of household change agents. These change agents, mostly young people who can help their families move out of poverty, are provided with the necessary support, including linking them to economic opportunities and helping them access further education and training colleges. There are about 200 000 change agents registered on the national change agent database.

The Deputy President, accompanied by a delegation of Ministers, visited the following areas as part of the anti-poverty programme during 2011/12:

- · Kga-Kgatla village in Limpopo
- · Lubala village in the Eastern Cape
- · Philipstown in the Northern Cape
- Ntunda village in Mpumalanga
- · Manthe village in North West
- · Msinga in KwaZulu-Natal
- · Bitou in the Western Cape
- · Krugersdorp in Gauteng
- · Jacobsdal in the Free State.

Various service delivery and socio-economic issues were dealt with during these visits, including the creation of economic opportunities, investment in human resources, and the provision of income security and the social wage.

Government's ongoing anti-poverty efforts were further strengthened by a Cabinet decision in July 2011 for government's coordinating structures to prioritise short-term job creation.

Government has pooled together the following programmes under one coordinating structure:

- The Community Works programme, targeting 1 million work
 opportunities by 2014
- The Expanded Public Works programme, targeting up to 2 million work opportunities
- The Vocational and Continuing Education and Training programme, which aims to increase enrolment from 300 000 to 800 000 students
- · The Jobs Fund
- Support for small and micro enterprises, including smallholders and agriculture.

To advance a national identity, government has popularised national symbols through education, publications, workshops, exhibitions, and the distribution and installation of flags in schools, public buildings and households. Other programmes undertaken by the President and Deputy President include officiating at high-profile events on national and international commemorative days. President Zuma participated in events on Heritage Day, Human Rights Day, Women's Day, Freedom Day, Youth Day and the National Day of Reconciliation, all of which are integral to building an inclusive society. The Deputy President also participated in various national commemorative days and public participation activities, including Women's Day, Heritage Day and a youth event in the Eastern Cape.

While there has been considerable progress in institutionalising the principle of inclusive citizenship, The Presidency acknowledges that there are still significant challenges causing deep pain and frustration that undermine the social fabric of our society. These include poverty, unemployment, landlessness, and race, class and gender discrimination.

The Presidency continues to be involved in various campaigns, events and actions in the areas of values and moral regeneration, traditional affairs, linguistic and religious communities, and other cultural aspects of society. The Presidency has put together a draft concept paper on social cohesion. This paper has formed the basis for the Department of Arts and Culture to conduct community dialogues and other activities in different provinces as a build-up to the summit.

Deputy President Kgalema Motlanthe represents The Presidency in the moral regeneration movement, which was established with government support to lead the mobilisation of society towards the promotion of constructive social values that build and enhance healthy families and communities. During the year under review, the Deputy President participated in moral regeneration activities as a patron. The Deputy President met with the board of the moral regeneration movement as well as the Minister of Arts and Culture, whose department is responsible for this programme. The Deputy President officiated at the moral regeneration movement event in the Eastern Cape on 30 July 2011 to mark the closure of the programme's month. The Deputy President and his delegation visited four households in Port Elizabeth before officiating at the main event. The moral regeneration programme also implemented various activities in different provinces, including youth programmes with a focus on both in-school and out-of-school youth, as well as dialogues in communities on social issues affecting them.

National Orders

National honours can play a significant role in building social cohesion by inspiring individuals or communities to greater achievements and service to the nation. The elevation of achievers and elders to national distinction encourages different communities to identify with a broader, inclusive South African identity. Through a public participation process, led by the Director-General of The Presidency Dr Cassius Lubisi, who is the Chancellor of National Orders, public nominations were evaluated and researched. Thereafter, a consolidated list of nominees was submitted for final selection by the President, who is the Grand Patron of National Orders. The Presidency executes an annual programme and strategy for National Orders and awards. During the year under review, one formal National Orders ceremony was held on Freedom Day, 27 April 2011, which honoured South Africans and a host of dignitaries. President Zuma bestowed the following orders: the Order of Mendi for Bravery, the Order of Ikhamanga, the Order of the Baobab, the Order of Luthuli, the Order of Mapungubwe and the Order of the Companions of OR Tambo (see detailed list of recipients on page 43-45).

The passing on of society's elders are moments for reflection, and it is proper that those esteemed by society are honoured when they die. The Presidency oversees the implementation of the policy on

state funerals, which authorises the President to declare a state funeral in any one of various categories. The following people were accorded official funerals:

Category	Name	Date
Special provincial official funeral	Hendry Makgothi	2 April 2011
Special provincial official funeral	Judge H Q Msimang	16 April 2011
Special official funeral	Albertinah Sisulu	11 June 2011
Special official funeral	Kader Asmal	24 June 2011
Special official funeral	Judge Fikile Bam	27 December 2011
Special provincial official funeral	Amichand Rajbansi	31 December 2011

As part of the programme on cultural, linguistic and religious groups and communities, the President and Deputy President attended meetings with cultural and linguistic groups. These included engagements with the Muslim and Jewish communities and other religious groups, as well as with traditional leaders.

The Presidency is mindful of the importance of sectoral engagements in mobilising society towards achieving national goals. To this end, the President and Deputy President were involved in extensive sectoral engagements.

Promotion of regional integration and the international programme, which is aligned to the international policy goals of government

South Africa's international stature and responsibilities have increased substantially. The country's participation and leadership beyond South African borders has been one of the hallmarks of the democratic order since 1994. The expectation for South Africa's leadership in the Southern African Development Community (SADC) region, the African continent and the world as a whole has increased even further in the past two years. Mindful of the fact that the successful execution of government's foreign policy is vital to the success of government's domestic development goals, The Presidency has been fully engaged with the Department of International Relations and Cooperation and other departments on all major foreign initiatives. Accordingly, it implemented an annual international programme for the President, Deputy President, and Ministers in The Presidency, aligned closely to the foreign policy goals of the country and aimed at strengthening the country's role in international initiatives.

The Presidency facilitated and provided oversight of interventions and strategies for programmes to promote improved conditions of peace, stability, security, democracy and good governance, while strengthening south-south relations and maintaining north-south relations. Accordingly, the President has been called upon to take on greater leadership responsibilities on the continent and globally, especially in respect of mediation. These included mediation efforts in the Ivory Coast, the African Union's attempts at mediation in Libya, and the President's appointment as chairperson of the SADC Trioka on Zimbabwe. The President is also a co-chair of the Global Sustainability Panel. As chair, South Africa successfully hosted and guided climate change negotiations at the COP17/ CMP7 United Nations climate change conference in 2011. South Africa continues to chair COP17. In addition, the country recently assumed the presidency of the United Nations Framework Convention on Climate Change and joined the BRICS formation. Over the remainder of this administration's term, The Presidency will increase its international engagements. The key priority over the medium term will be to increase South Africa's leadership and engagement in the SADC region, the African continent and in multilateral institutions such as the Group of 20, United Nations Framework Convention on Climate Change and BRICS.

During the year under review, The Presidency continued to support government efforts to promote and strengthen political and economic relations with African countries and foster the mutual goal of creating a better life as part of promoting the African development agenda. It had engagements with the governments of São Tomé-Príncipe, Ghana and Nigeria. The Presidency held highlevel meetings with all the countries in southern Africa. Government has assisted the Democratic Republic of the Congo (DRC) with its second democratic elections and led the SADC election observer mission to the DRC, Zambia and Seychelles. In addition, The Presidency continued to assist the people of Zimbabwe, as part of our SADC mandate, and to support mediation efforts to return constitutional normalcy to Madagascar. Government will soon establish formal diplomatic relations with Somalia and has contributed to the alleviation of famine in that country.

Government has also worked towards the consolidation of relations with the Arab Gulf states. The President undertook state visits to Oman and the United Arab Emirates in November 2011, as well as a subsequent working visit to the state of Qatar in January 2012. These countries already invest in South Africa, and The Presidency hopes to promote further investment in South African infrastructure projects. The Presidency also reinforced political and economic relations with China, Japan, Vietnam, Turkey, Finland, Germany, Sweden, the United States, the United Kingdom and Denmark. This was aimed at boosting trade and tourism, and increasing people-topeople contact. The Presidency has focused specifically on relations with China and Japan, the country's largest and second–largest trade partners respectively. The country's relationship with China specifically is characterised by cooperation on both bilateral and multilateral levels. President Zuma brokered a strategic partnership agreement with China's President Hu Jintao. As a direct result, South African Airways now flies directly to Beijing. This will promote business, tourism and cultural exchange. Specific South African manufactured products will also soon enjoy access to the Chinese market.

During 2011, South Africa formally joined Brazil, India and China in the BRICS grouping of fast-growing emerging market countries. The formation of up-and-coming regional powers collectively makes up nearly a fifth of the world's gross domestic product. As Africa's leading economy, South Africa champions the interests of developing countries in calling for the reform of the United Nations and the international monetary systems. South Africa's membership of BRICS acknowledges Africa's rightful position and emergence as an area of dynamic growth in the world. The proposed new BRICS Development Bank is an exciting development with great potential for African development, which government will take further when it hosts BRICS in 2013.

South Africa hosted the 5th India, Brazil, and South Africa Dialogue Forum in October 2011. This constitutes an important south-south grouping of like-minded countries that are pursuing sustainable development objectives.

Presidential review of state-owned enterprises

The relative size of public entities and state-owned enterprises (SOEs) makes them important players in service delivery and in their respective sectors of the economy. SOEs dominate the electricity, transportation and telecommunications sectors, which deliver social goods and services that ensure quality of life for all South Africans. SOEs should therefore ensure that, while they remain financially viable, they also respond to a clearly defined public mandate and support the developmental aspirations of government. They should also play a strategic role in responding to the industrial policy, economic transformation, job creation, service delivery and other objectives of government.

The Presidential State-Owned Enterprises Review Committee was established in 2010. Subsequent to the President's announcement of the committee during his budget vote, 12 committee members from relevant, diverse backgrounds were appointed to execute the review mandate. The main objective of the Presidential State-Owned Enterprises Review Committee was to review the role of SOEs in a developmental state.

While the committee operated autonomously, The Presidency provided administration support to the committee. This included processing the committee's financial, procurement and other administration operations. Furthermore, The Presidency was the platform through which the Presidential State-Owned Enterprises Review Committee processed accounts in order to comply with government's accounting and reporting provisions.

The committee completed its review work during 2011/12 and has presented its final report to the President.

Management of The Presidency and its programmes and organisational reform

The overriding mandate of The Presidency is to enable the principals to perform their assigned responsibilities and duties. The work covered under this theme relates to the internal operations and planning of The Presidency as an administrative organisation. In this respect, the work of The Presidency is regularised and essentially remains the same year after year. The Presidency operates on the basis of a good governance framework, in accordance with the applicable legislative prescripts, such as the PFMA and Public Service Act, relevant human resources acts, and specified performance management processes.

During 2011/12, The Presidency completed and stabilised the organisational reform and change process it initiated two years ago. The DPME and the National Planning Commission and Secretariat are fully functional and provide the necessary capacity for national planning, monitoring and evaluation to enhance the performance and efficiency of the state.

In addition, further reform was carried out with the transfer of Brand South Africa from GCIS to The Presidency. The Presidential Hotline, a tool for tracking government performance, was also transferred to the DPME in The Presidency. Weekly, monthly and quarterly reports on the nature of issues from the call centre are used to alert the President and principals to emerging clusters of issues. These are used directly to determine further government interventions.

Strategic objective 2:

To develop the country's long-term vision and national strategic plan and contribute towards better outcomes in government through better planning, better long-term plans, more policy coherence and clear articulation of long-term goals and aspirations.

After receiving the electoral mandate in the 2009 national elections, the current administration embarked on a macro-reorganisation of national government. This resulted in the remodelling of The Presidency to better respond to the challenges faced by national government. Key among these were the establishment of the Ministry for the National Planning Commission and the DPME.

Following an extensive debate and a process of public consultation, The Minister in The Presidency for the National Planning Commission Trevor Manuel tabled a revised Green Paper on National Planning. This document laid the basis for the establishment of the commission, its functions and broad mandate.

The National Planning Commission, chaired by Minister Trevor Manuel and manned by 25 expert commissioners, was tasked with producing a vision and strategic plan for the country. The vision was to have broad support across all sectors of society while confronting the critical trade-offs and challenges to be faced by our country over the next 20 years. The commission was also tasked with sharpening the focus of government by ensuring greater policy coherence, independently and critically appraising government policies, and conducting in-depth research on how best government can achieve its objectives. The work of the commission is supported by a Secretariat, which is located in The Presidency. The commission was given 18 months to deliver the vision and plan.

The commission spent the greater part of 2010/11 doing focused work in three separate areas. Firstly, it initiated work on the vision statement. Secondly, it set out to produce a detailed diagnostic document outlining key strategic objectives and an analysis of what the key challenges are in achieving these objectives. The diagnostic report drew on existing research and data as well as on extensive commissioned original research. The third area of work was on the *National Development plan* itself. All three areas of work entailed detailed research; consultations with stakeholders such business, labour, civil society, local government, provincial and national departments; meeting communities; testing ideas with experts; and examining comparable international experience. In doing its work, the commission provided regular feedback to the President and Cabinet.

In June 2011, the commission released a diagnostic document outlining key strategic objectives and an analysis of what the key challenges are in achieving these objectives. This set out the overriding objectives of a national plan to eradicate poverty and reduce inequality by 2030. In addition to providing elements of a vision statement, the diagnostic report set out nine key challenges. Of these nine, two were considered more important, namely: that too few people work and that the quality of school education for black learners remains poor. Other challenges identified included the country's infrastructure backlog, the unsustainable use of natural resources, the spatial divides that excluded the poor from economic advancement, a health system that is creaking under a heavy burden of disease, the high level of corruption, the uneven quality of public services, and that South Africa remains a divided society, notwithstanding the progress that has been made.

Following a national road show on the diagnostic document, the commission added four new areas to the list of nine challenges. These were: the rural economy, social protection, citizen safety, and South Africa in the region and the world. The public welcomed the diagnostic report as a frank and accurate account of the country's successes and failings. The process also provided a useful basis for work on a plan to address these concerns.

In November 2011, the commission released a draft vision statement and a draft *National Development Plan* for public consideration. The plan focused on matters that are immediately within the domain and purview of national government, as well as those affecting governments across the globe and that will shape South African development over the next 20 years. Since the release of the draft plan, the commission embarked on one of the most extensive public consultation processes since the drafting of the Constitution in the mid-1990s. In addition to talking to the public, the process involved extensive consultation with Parliament, political parties, national government departments, provinces, organised local government, SOEs and development finance institutions. On 14 March 2012, the commission briefed the National Assembly and, between 17 and 19 April, briefed four clusters of parliamentary

STRATEGIC OUTCOME-ORIENTED GOALS

committees. The briefings resulted in the submission of constructive recommendations from each cluster.

While uncertainties are expected to mark the global environment over coming years, the development mandate derived from the Constitution remains an imperative for government. The commission recognised that it was important that the proposals in the draft *National Development Plan* address these uncertainties; and these challenges are discussed and owned by the people whose lives it sought to change.

The commission released a refined plan in early August 2012. The plan has been submitted to Cabinet for consideration and acceptance. The plan also includes an implementation framework to guide society, including roles for civil society, labour, business, Parliament and government, as led by the President and Cabinet. The DMPE will begin the process of incorporating the targets set out in the *National Development Plan* into performance and delivery agreements.

The commission, in future, will focus on four broad areas:

- Continuing to mobilise support in society for the plan, including its implementation framework. This includes working towards greater social cohesion and exploring the feasibility of a broader social compact on key developmental issues.
- Conducting ongoing research into critical areas of development to support planning and policy development. This includes working with provinces and municipalities to deepen the planning system and enhance the quality of plans.
- · Advising government on implementing the plan.
- $\cdot~$ Working with the DMPE to monitor the plan's implementation.

The commission will, over the course of the next two years, also focus on the following priority areas for further research: food security, water security and rural development; adaptation strategies and environmental resilience; more effective models of BEE; exercise, diet, nutrition and other preventative health areas; social cohesion and language; disability policy and partnerships for innovation.

The national income dynamics study and the related programme to support pro-poor policy development (PSPPD) also fall under the auspices of the National Planning Commission. The PSPPD is a partnership between The Presidency and the European Union. Originally located in the defunct Policy Coordination and Advisory Service, the PSPPD is now located in the National Planning Commission. The programme's implementation period was three years, from 2009 until the end of 2011. Its overarching goal is to support evidence-based policy-making around poverty and inequality and to improve the use of empirical evidence to support rigorous analysis and policy-making linked to the national income dynamics study. The programme's focus is mostly national, but includes support to provinces, notably Limpopo and the Eastern Cape, with limited support to the Free State.

The PSPPD funded 13 research projects on topics including women's pathways to crime and the nutritional benefits of traditional leafy vegetables. A dissemination conference, titled "Being Poor Matters: Poverty and Inequality in South Africa", was held on 24 and 25 August 2011 in Pretoria. This conference showcased the findings of the 13 grantees, as well as those of the national income dynamics study.

STRATEGIC OUTCOME-ORIENTED GOALS

SUMMARY DESCRIPTION OF THE PRESIDENCY BRANCHES

LAKELA KAUNDA Deputy Director-General, Private Office of the President

BUSANI NGCAWENI Deputy Director-General, Office of the Deputy President

PRIVATE OFFICE OF THE PRESIDENT

The Private Office of the President provides effective and efficient strategic, executive and personal support services to the President in the execution of his responsibilities, as outlined in the Constitution of the Republic of South Africa. The branch consists of the following units:

- · Head of the Private Office of the President
- · Presidential Support Services
- · Special Projects
- Media Liaison
- · Communications Research.

OFFICE OF THE DEPUTY PRESIDENT

The Office of the Deputy President is responsible for planning, administering and coordinating strategic support services to the Deputy President to assist in the fulfilment of his constitutional, executive and political responsibilities. The office consists of the following units:

- · Office of the Deputy Director-General
- · Personal Support Services
- · Strategy and Special Projects
- · Communications.

MINISTRY OF PERFORMANCE MONITORING AND EVALUATION

The Ministry for Performance Monitoring and Evaluation is responsible for providing strategic and administrative support services to the Minister and Deputy Minister to enable them to fulfil their constitutional, executive and political responsibilities.

The ministry consists of the following units:

- $\cdot~$ Office of the Minister
- · Office of the Deputy Minister

 Public Entity Coordination Unit, which manages The Presidency's public entities: Brand South Africa, NYDA, GCIS and the MDDA (through GCIS).

THE NATIONAL PLANNING COMMISSION SECRETARIAT

The National Planning Commission Secretariat supports the National Planning Commission to develop the country's long-term vision and **National Development Plan**. Through participation in government planning structures it aims to contribute to policy coherence and articulation between sectoral plans and the **National Development Plan**. The National Planning Commission Secretariat consists of the following units:

· Research and Policy Coordination

This component manages and facilitates research and policy processes on long-term developmental issues and provides technical support to the National Planning Commission. This entails:

- Producing reports and discussion papers on identified crosscutting issues that affect long-term development of the country.
- Translating sector plans to inform South Africa's long-term vision and national strategic plan.
- Providing advice to departments on areas in which the quality of policies, operational plans and implementation strategies need to be improved.
- Publishing a research report based on the national income dynamics study.

· Commission Support Services

This unit provides support services, including corporate support services, to the commission and secretariat. This entails providing management services, human resource management and development services, supply chain and logistic services, information and communication technology services, and legal and contract management services.

KGOMOTSO MAAROGANYE Chief of Staff, Ministry for Performance, Monitoring and Eval

PROGRAMME PERFORMANCE

FOR THE YEAR ENDED 31 MARCH 2012

This section provides an overview of The Presidency's programme performance for 2011/12. The following were the three budget programmes within The Presidency:

PROGRAMME 1: ADMINISTRATION

Purpose: Provide effective leadership, strategic management and administrative support services to the principals and the branches of The Presidency in fulfilment of The Presidency's mission and mandate.

PROGRAMME 2: NATIONAL PLANNING

Purpose: Develop the country's long-term vision and national strategic plan and contribute towards better outcomes in government through better planning, better long-term plans, greater policy coherence and clear articulation of long-term goals and aspirations.

PROGRAMME 3: AUXILIARY AND ASSOCIATED SERVICES

Purpose: Facilitate the transfer of funds to the NYDA so that the agency may initiate, implement, facilitate and monitor youth development interventions aimed at reducing unemployment and promoting social cohesion. Facilitate the transfer of funds to Brand South Africa in order to inform the international marketing strategy of the country by ongoing monitoring, assessing and analysing national and international media coverage of South Africa.

Voted funds

Appropriation	Main appropria- tion (R'000)	Adjusted appropria- tion (R'000)	Actual amount spent (R'000)	Over/under expenditure (R'000)
Medium-term expenditure framework allocation	814 983	930 910	904 207	26 703
Statutory appropriation	4 810	4 010	4 010	0

Aim

Facilitate a common programme to achieve the electoral mandate and the enhanced integrity of the state through considered planning, coordination, oversight, mobilisation and support. Organisational performance matrix

During the reporting period, the annual performance plan was revised to address matters identified by the Auditor-General's management report tabled in July 2011.

STRATEGIC OBJECTIVE 1:

Provide effective leadership, strategic management and administrative support services to the principals and branches of The Presidency in fulfillment of The Presidency's mission and mandate.

Private Office of the President

Presidency output	Activity	Measurable outcome	Performance indicator	Target 2011/12	Annual performance for 2011/12 against target

Targeted percent reduction in queries/ issues referred to human resources by line function managers. Targeted percent reduction of vacancy rate. Submission of aligned human resources plan and human resources plan and human resources guan development strategy within stipulated time frame. Submission of human resources oversight report for 2011/12 within stipulated time frame.	Draft special leave policy, and review the resettlement policy. Workshop on recruitment process and leave policy with line managers to improve application of the policies. Reduce vacancy rate by 8 percent. Aligned human resources plan and human resources development strategy submitted. Human resources oversight report for 2011/12 submitted.	Not achieved due to delay in Departmental Bargaining Council to negotiate special leave policy. Conducted road shows in Pretoria, Cape Town and Durban households during March 2012. Additional effort put in by Human Resources Directorate to fill newly funded vacancies, but reprioritisation of posts during March 2012 hampered decreasing vacancy rates. Human resources plan and human resources development strategy submitted on time.
			Policies and standard operating procedures developed for employee health and wellness.	Policies finalised for health and wellness, disability and gender and their alignment to NSP for HIV and AIDS and TB. Standard operating procedures developed for employee health and wellness, gender and disability (assessment gap).	This target has not been achieved.

PROGRAMME PERFORMANCE FOR THE YEAR ENDED 31 MARCH 2012

Presidency output	Activity	Measurable outcome	Performance indicator	Target 2011/12	Annual performance for 2011/12 against target
	Provision of legal and administrative support to President and Secretary to Cabinet.	Enhanced legal and executive support services. Legal compliance by President with all constitutional obligations. Quality and correctness of all executive acts and legislation submitted from departments.	Legal and administrative support provided to President and Cabinet Secretary.	Legal and administrative support provided to President and Cabinet Secretary.	Ensured that all executive acts signed by President are in line with Constitution and relevant empowering legislation. Efficient legal and administrative support provided to President and Cabinet Secretary. Legal and administrative support was provided to President in consultation with legal advisors.
					Quality legal advice provided to Secretary in matters relating to administration of Executive Ethics Code. Legal strategy in matters involving President was taken in consultation with legal advisors.
	Optimum handling of court cases involving Presidency in line with state policies.	Court cases involving Presidency handled optimally.	Compliance with state policies. Number of cases handled. Percentage of cases won.	Legal matters involving principals and The Presidency in general managed.	Ensured all legal cases involving principals and The Presidency in general are handled effectively and efficiently. Provided strategy/ direction on legal approach to cross-cutting legal issues affecting different government departments. Legal strategy in matters involving President was taken in consultation with legal advisors.
	Render strategic internal communication service to all offices in The Presidency that assists in performance of responsibilities and results in well-informed staff.	Effective and efficient internal communication solutions provided.	Developed and implemented annual internal communication plan.	Developed and implemented annual internal communication plan for 2012/13, with clear goals using all relevant available communication media.	Reported against annual internal communication plan for 2011/12. Developed annual internal communication plan for 2012/13.

Commission on State-Owned Enterprises

Presidency output	Activity	Measurable outcome	Performance indicator	Target 2011/12	Annual performance for 2011/12 against target
Report to The Presidency outlining state of SOEs and recommendations on how to strengthen their contribution to developmental state aspirations of government.	Enable decision-making on how to strengthen SOEs' role in development work.	Report on state of SOEs tabled for review of President.	Report on state of SOEs tabled for review of President.	Final report on state of SOEs tabled for review of President.	Final report on state of SOEs tabled for review of President.

PROGRAMME PERFORMANCE FOR THE YEAR ENDED 31 MARCH 2012

STRATEGIC OBJECTIVE 2:

To develop the country's long-term vision and national strategic plan and contribute towards better outcomes in government through better planning, better long-term plans, more policy coherence and clear articulation of long-term goals and aspirations.

National Planning

Presidency output	Activity	Measurable outcome	Performance indicator	Target 2011/12	Annual performance for 2011/12 against target
Unifying vision (<i>Vision 2030</i>) developed, consulted on by all stakeholders, and approved by Cabinet. Long-term development plan to achieve goals outlined in Vision 2030 delivery in place.	Develop Vision 2030 for country.	Improved long-term plans, and policy coherence in government.	Vision Statement tabled for Cabinet consideration and approval.	Vision Statement 2030 released for Cabinet consideration 11 November 2011.	Draft elements of Vision Statement 2030 released 9 June 2011. Stakeholder and public engagements on Vision 2030 and plan: Continued public engagements, with government ministries, departments, labour unions, student organisations, community development workers, religious bodies, business organisations, academic institutions and civil society non-governmental organisations. Continued stakeholders workshops across key areas identified in draft plan. Continued refinement and rewriting process in anticipation of finalisation for submission to Cabinet and President Zuma by 2012/13.
	Develop national plan setting out achievement of Vision 2030.		Development plan tabled for Cabinet consideration and approval.	Long-term development plan that sets out key targets for 2030 and steps or decisions required to achieve vision.	Finalised, launched and submitted draft <i>Vision 2030 and</i> draft <i>National Development</i> <i>Plan</i> to President and Deputy President on 11 November 2011. Stakeholder and public engagements under way on <i>National Development</i> <i>Plan</i> .
	Release diagnostic document that sets out what is on track, what is wrong, and challenges going forward.		<i>Diagnostic Report</i> tabled for Cabinet consideration and approval.	Released first <i>Diagnostic</i> <i>Report.</i>	<i>Diagnostic Report</i> released 9 June 2011 for public consultation.

PROGRAMME PERFORMANCE FOR THE YEAR ENDED 31 MARCH 2012

Presidency output	Activity	Measurable outcome	Performance indicator	Target 2011/12	Annual performance for 2011/12 against target
	Administer PSPPD linked to national income dynamics study aimed at research and capacity-		PSPPD developed and implemented.	PSPPD to host conference in August 2011 and all 13 research studies presented.	PSPPD conference held and 13 research studies presented by selected universities.
	building programmes to promote evidence-based pro-poor policy and development interventions				PSPPD Steering Committee meeting held 14 September 2011.
	that address poverty and inequality.				Research papers presented at conference "Being Poor Matters" were presented in accessible format as insert in <i>Mail&Guardian</i> 23/24 September 2011.
					These papers are being edited and will be presented as a research paper series, available on PSPPD website and in hardcopy.
					Between October and December, held child inequality workshop, crime workshop, and evidence-based policy making workshop.
					In December, PSPPD published insert in <i>Mail&Guardian</i> on evidence-based policy making.
					Over October and November, national income dynamics study participated in tender process run by UCT to appoint field work company for national income dynamics study (wave 3).
					National income dynamics study Steering Committee meeting held 16 November 2011.

SECTION D HUMAN RESOURCES OVERSIGHT

HUMAN RESOURCES OVERSIGHT

FOR THE YEAR ENDED 31 MARCH 2012

The total staff headcount in The Presidency increased from 636 in 2010/11 to 640 as at 31 March 2012. The total number of approved posts decreased from 940 in 2010/11 to 875 in 2011/12. Of the approved posts in 2011/12, 640 were filled and 22 were transferred with the function of Presidential Hotline to the DPME with effect from 1 October 2011. The vacancy rate decreased from 32 percent to 26.9 percent (Table 3.1). On 31 March 2012, The Presidency had 50 posts additional to the establishment, of which 23 were interns employed in the department.

The Presidency's staff turnover increased from 8.5 percent in 2010/11 to 17 percent during the year under review (Table 5.1). Various staff retention strategies and interventions were implemented, including granting higher salary offers in terms of Public Service Regulations (2001), internal promotions, and staff training and retraining. Most of the recruitments during the reporting period were in salary levels 9 to 12 (Table 5.1).

Of the 110 terminations during the year under review (Table 5.3), 38 percent were as a result of the expiry of contracts (including internships) and 32 percent were due to transfers to other government departments (including the 20 staff members that moved to the DPME with the transfer of the Presidential Hotline function). About 26 percent of the terminations were due to resignations. Administrative occupations were the most affected by the terminations.

Between January 2011 and December 2011, 4 191 days were used for sick leave. About 82.2 percent of these had medical certification. The numbers of staff members that used sick leave came to 413 (Table 9.1) and reflects an average of 10 days sick leave per employee who used sick leave. The Presidency was in the process of establishing an employee health and wellness directorate. However, the directorate could not be capacitated in the current reporting period due to budgetary constraints.

Although it is the second year of the three-year sick leave cycle, nine employees have already applied for a total of 431 days incapacity leave, which required some investigation. It was established that the Cape Town office had the most employees applying for incapacity leave compared to the rest of the department. Our expectation is that through interventions, such as workshops on policy on incapacity leave and ill-health retirements and the Government Employees' Medical Scheme conducted in the fourth quarter of the financial year, some ailments will be curtailed, which will lead to a reduction in sick leave in general and specifically incapacity leave. The rate of approvals of applications for incapacity leave has increased due to the increased advice and management from the liaison officers to make employees aware that the onus of proof to submit detailed supporting documentation (that substantiates and supports the request for incapacity leave) lies with each individual employee. During the 2011 leave cycle, 8 977 days were taken for annual leave by all employees, with each employee averaging 18 days (Table 9.3).

A total of 20 cases were dealt with relating to discipline. This represents an increase from the 10 cases dealt with in the previous financial year. Nine cases resulted in final written warnings being issued and, in one case, an employee was issued with a final written warning and suspended without pay (Table 11.2). The Labour Relations unit of The Presidency has drafted a manual for disciplinary training to senior management service (SMS) members in the previous financial year, but the attempt to roll out the training to educate managers and supervisors was unsuccessful in this financial year due to poor attendance.

Of the total 26 employees promoted within the department during the reporting period, 46 percent were on salary levels 6 to 8 and 23 percent were on salary levels 9 to 12 (Table 5.6).

Table 7.2, 7.3 and 7.4 show that 187 employees in The Presidency received performance rewards for the performance cycle 2011/12. Of these, 29.8 percent were on salary level 2 to 12 and 32.5 percent were on SMS level.

With effect from 1 April 2011, the transfer of staff to the DPME was concluded. On 1 October 2011, the Presidential Hotline was transferred to the DPME, resulting in the transfer of another 22 posts.

Table 4.1 shows that out of a total of 875 posts in The Presidency, 39 were subjected to job evaluation during the period. a total of 51.3 percent of the jobs evaluated were on salary levels 9 to 12 and 38.5 percent were on salary levels 6 to 8. During the evaluations, two posts were upgraded. Both were on salary level 9 to 12.

Although the posts of Chief Director: Human Resource Management and Chief Financial Officer were advertised in the financial year, the department was not able to fill the relevant posts before the end of 2011/12.

Table 3.3 points to the top five critical occupations that had the highest vacancy rate. These are: logistical support personnel,

HUMAN RESOURCES OVERSIGHT

FOR THE YEAR ENDED 31 MARCH 2012

administrative related, finance and economics related, financial clerks and credit controller, and senior managers. These positions have been prioritised to be filled during the coming financial year.

The Presidency, in keeping with one of its key priorities of upgrading the skills of its staff complement, identified 300 staff members' training needs (Table 12.1) and provided training during the year to 334 staff members (Table 12.2). Training was provided to 57.3 percent of females employed in the department and to 51.2 percent of male employees.

Table 2.2 shows that 89.8 percent of the total voted expenditure was for compensation. The largest percentage of personnel cost relates to compensation for employees on salary levels 6 to 8 and 9 to 12.

Table 6.2 reflects that the staff profile of The Presidency is as follows: 57.3 percent black female, 38.6 percent black male, 2.8 percent white female and 1.3 percent white male. The representivity of females on top management level is 28.6 percent compared to the 71.4 percent of males. An employment equity plan has been designed and is to be implemented shortly. Salient features of the document are the equity targets for females (on levels 14 to 16) and employees with disabilities, which is currently at a low 0.78 percent, with a deficit of 1.7 percent.

The key challenge in the human resource environment remains the turnaround time in the recruitment and selection process. This is mainly because the pre-employment security screening is unpredictable. In some instances, the outcome is available within two to three weeks but in others the process takes an extended amount of time.

In the current reporting period, internship programme intake for 2012/13 was planned by the Human Resources unit and most of the interns were made an offer of internship before 1 April 2012.

One of the key successes during the reporting period was that the audit report had fewer issues with the performance of the Human Resources unit than in the previous financial year.

TABLE 1.1: Signing of performance agreements by SMS members as on 31 May 2011

SMS level	Total number of funded SMS posts per level	Total number of SMS members per level	Total number of signed performance agreements per level	Signed performance agreements as percentage of total number of SMS members per level

N/A	N/A						

TABLE 10.2: Details of Health Promotion and HIV/AIDS Programmes			
Question	Yes	No	Details, if yes
1. Has the department designated a member of the SMS to implement the provisions contained in Part VI E of Chapter 1 of the Public Service Regulations, 2001? If so, provide her/his name and position.	Yes		Ms Busisiwe Ngobeni
2. Does the department have a dedicated unit or have you designated specific staff members to promote the health and wellbeing of your employees? If so, indicate the number of employees who are involved in this task and the annual budget that is available for this purpose.	Yes		The department has a dedicated Employee Health and Wellness unit providing an integrated, needs-driven and holistic approach to employees.
3. Has the department introduced an Employee Assistance or Health Promotion Programme for your employees? If so, indicate the key elements/services of the programme.	Yes		Key services provided: healthy lifestyle campaigns, disease management programmes, health education, physical fitness programmes, financial wellness programmes, grief counselling, trauma debriefing, communicable and non-communicable disease awareness drives and blood donation drives.
 Has the department established (a) committee(s) as contemplated in Part VI E.5 (e) of Chapter 1 of the Public Service Regulations, 2001? If so, please provide the names of the members of the committee and the stakeholder(s) that they represent. 		No	The committee has not been established.
5. Has the department reviewed its employment policies and practices to ensure that these do not unfairly discriminate against employees on the basis of their HIV status? If so, list the employment policies/practices reviewed.	Yes		Employment policies and practices were reviewed by the department, namely: reasonable accommodation for employees with disability, HIV and AIDS and TB management, wellness management policy and health and productivity policy.

HUMAN RESOURCES OVERSIGHT

TABLE 10.2: Details of Health Promotion and HIV/AIDS Programmes							
Question	Yes	No	Details, if yes				
 Has the department introduced measures to protect HIV-positive employees or those perceived to be HIV-positive from discrimination? If so, list the key elements of these measures. 	Yes		The Employee Health and Wellness unit ensures employees' confidentiality on their status. The unit services for employees include: education, advice, counselling and support. It is supported by registered professionals with specialist training and expertise. It advocates for upholding of human dignity at SMS level of those who are positive/ suspect to be positive to reduce stigma.				
7. Does the department encourage its employees to undergo Voluntary Counselling and Testing? If so, list the results achieved.	Yes		See attached HIV counselling and testing campaign statistics for Cape Town.				
8. Has the department developed measures/indicators to monitor and evaluate the impact of its health promotion programme? If so, list these measures/indicators.	Yes		See attached readiness assessment and monitoring tool.

REPORT OF THE AUDIT COMMITTEE

TO THE EXECUTIVE AUTHORITY AND PARLIAMENT OF THE REPUBLIC OF SOUTH AFRICA

We are pleased to present our report for the financial year ended 31 March 2012.

AUDIT COMMITTEE MEMBERS AND ATTENDANCE

The Audit Committee consists of the members listed hereunder and should meet four times per annum as per its approved terms of reference. During the current year, six meetings including meetings for specific purposes were held.

Name of member	Number of meetings attended
Mr George Negota (Chairperson)	6
Mr Stewart Patterson	6
Ms Lorraine François	6
Mr Cedric Boltman	6
Ms Ntombi Langa-Royds	5
Mr Anton Bischof	5

AUDIT COMMITTEE RESPONSIBILITY

The Audit Committee reports that it has complied with its responsibilities arising from section 38(1)(a) of the PFMA and Treasury Regulation 3.1.

The Audit Committee also reports that it has adopted appropriate formal terms of reference in its audit committee charter, has regulated its affairs in compliance with this charter and has discharged all its responsibilities as contained therein.

THE EFFECTIVENESS OF INTERNAL CONTROL

The system of internal control was not entirely effective for the year under review. During the year under review, several deficiencies in the system of internal control and/or deviations were reported by the internal auditors and the Auditor-General of South Africa. In certain instances, the matters reported previously have not been fully and satisfactorily addressed. Management in some instances did not timeously and effectively address findings reported by internal audit, which continues to be of concern to the Audit Committee. Contributory factors were, we understand, vacancies in key positions which were not filled timeously. The Chief Operations Officer position was vacant for five months. The Chief Financial Officer position has been vacant for more than 12 months and this was a contributing factor. If internal control is to be more effective, then findings should be rigorously addressed.

RISK MANAGEMENT

Risk management was not fully effective in that:

- Risk acceptance and tolerance levels have not been approved for The Presidency
- Implementation of risk mitigation plans against the October 2010 approved risk register were not always effective
- Although a risk assessment took place in November 2011, a revised approved risk register was not available for the 2011/12 financial year. No reporting against mitigation plans took place for the year under review.

MANAGEMENT REPORT OF THE AUDITOR GENERAL OF SOUTH AFRICA

An interim and final management report was presented for discussion at an Audit Committee meeting on 2 March 2012 and 27 July 2012 respectively.

The quality of in-year management and monthly/quarterly reports submitted in terms of the PFMA

Except for non submission of the interim financial statements to the Audit Committee, the Audit Committee is satisfied with the content and quality of monthly and quarterly reports.

EVALUATION OF FINANCIAL STATEMENTS

The Audit Committee has:

- Reviewed and discussed the audited annual financial statements to be included in the annual report, with the Auditor-General of South Africa and the Accounting Officer
- Reviewed the Auditor-General of South Africa's management report and management's response thereto
- · Not identified any changes in accounting policies and practices
- Reviewed information on predetermined objectives to be included in the annual report
- Reviewed the department's compliance with legal and regulatory
 provisions
- · Reviewed significant adjustments resulting from the audit
- Not reviewed the interim financial statements since they were not submitted to the Audit Committee for review.

The Audit Committee concurs with and accepts the Auditor-General's conclusions on the annual financial statements, and is of the opinion that the audited annual financial statements should be accepted and read together with the report of the Auditor-General.

REPORT OF THE AUDIT COMMITTEE

TO THE EXECUTIVE AUTHORITY AND PARLIAMENT OF THE REPUBLIC OF SOUTH AFRICA

INTERNAL AUDIT

The Audit Committee is satisfied that the internal audit function is operating in terms of the International Standards for the Professional Practice of Internal Auditing. This has been confirmed by an independent external assessment in which a rating of general conformance was achieved. Because of a number of repeat adverse findings, Internal Audit provided consulting services in the form of training in an attempt to enhance internal control.

AUDITOR-GENERAL OF SOUTH AFRICA

The Audit Committee has met with the Auditor-General of South Africa to ensure that there are no unresolved issues.

 $\gamma\gamma$

Mr George Negota Chairperson of the Audit Committee Date: 31 July 2012

TO THE EXECUTIVE AUTHORITY AND PARLIAMENT OF THE REPUBLIC OF SOUTH AFRICA

1. GENERAL REVIEW OF STATE OF FINANCIAL AFFAIRS

The year under review can be characterised as the year of amplified programme implementation for the two newly established entities within The Presidency. The DPME and the National Planning Commission, which are now fully functional and well established. The two institutions have now addressed gaps in coordination, planning, and monitoring and evaluation. These entities have also provided greater impetus to effect the primary role of The Presidency, which is:

- 1. To support the President in leading and galvanising the whole of government and society to implement the electoral programme.
- To serve as a centre for strategic coordination in implementing government's programme to ensure that all energies and efforts are properly aligned behind the achievement of a common, unifying vision.
- 3. To monitor that the programme of government is implemented and evaluate whether it is achieving its intended objectives.

Some additional significant changes that have taken place during the year under review include the shifting of the function of the Presidential Hotline to the DPME and the movement of Brand South Africa to The Presidency. Through the creation of the PICC, aimed at spearheading and coordinating the infrastructure development programme of government, The Presidency will provide necessary support to the President and the Deputy President in order to ensure that this critical priority of government is implemented. The establishment of the PICC was coupled with the reformulation of the terms of reference of the previous Anti-Poverty Inter-Ministerial Commission to establish the short-term Job Creation Commission, led by Deputy President Kgalema Motlanthe.

These additional institutional changes indicated above, together with South Africa's increasing stature and responsibilities in the international arena, show that in the recent past The Presidency has received budget allocations which are not proportionate to its increased obligations and responsibilities both domestically and internationally. The President has taken on more leadership responsibilities in the African continent as well as across the globe. The Presidency plays a role of being a mediator on the continent and the world. The country has considerable obligations in terms of African Union, SADC and United Nations decisions. Attending the World Economic Forum, being a member of BRICS and other forums means that more personnel are needed, and, therefore, an increase in concomitant expenditure.

Although in the year under review The Presidency recorded a saving on its budget to the amount of R26.703 million, this was mainly due to increased adjustments on compensation of employees, and does not represent real adequacy of The Presidency budget to carry out its strategic plan.

Another major milestone in the financial year under review is the finalisation of changes to the budget programme structure of The Presidency, to effectively align the new strategic direction of the organisation to the budget. The Presidency now has three budget programmes.

The table below depicts the allocations made in 2011/12 in comparison to the 2010/11 financial year.

Budget allocation for the 2011/12 fiscal year					
	R'000	R'000	R'000		
Description	2011/12	2010/11	Increase/ (decrease)		
Budget allocation	930 910	807 463	123 447		
Statutory allocation	4 010	4 550	(540)		
Total budgeted allocation	934 920	812 013	122 907		

The Presidency received a total adjustment allocation of R114.954 million during the adjustment estimate process in order to support its activities. This amount is made up as follows:

- Programme 1: Administration received R20 million for legal services.
- Protocol and ceremonial services received R1.5 million for state funerals.
- · The Presidential Review Commission received R11 million.
- · Support services to the President received R5 million.
- · R20 million was allocated for increased personnel remuneration.
- Brand South Africa was transferred from GCIS with a budget of R62.453 million.
- R4.026 million was transferred to the DPME for the function of the Presidential Hotline.
- R973 000 was transferred to National Treasury in respect of the Political Office Bearers Pension Fund.

Funds were transferred as stated below between the main divisions of the Vote.

Virement between main divisions in Vote 1.					
	R'000		R'000	R'000	
To programme	Amount	From programme	Amount	Appropriation	Percent
Programme 1	6 660	Programme 2	6 660	85 102	7.8
Programme 1	1 289	Programme 3	1 289	448 306	0.3
Total	7 949		7 949	533 408	1.5

2. SERVICES RENDERED BY THE DEPARTMENT

With the move of Brand South Africa to The Presidency, the services of the organisation are now offered under the three new budget programmes of The Presidency, which are:

Programme 1: Administration

Purpose: Provide effective leadership, strategic management and administrative support services to the principals and the branches of The Presidency in fulfilment of The Presidency's mission and mandate.

Programme 2: National Planning

Purpose: Develop the country's long-term vision and national strategic plan and contribute towards better outcomes in government through better planning, better long-term plans, greater policy coherence and clear articulation of long-term goals and aspirations.

Programme 3: Auxiliary and Associated Services

Purpose: Facilitate the transfer of funds to the NYDA so that the agency may initiate, implement, facilitate and monitor youth development interventions aimed at reducing unemployment and promoting social cohesion. Facilitate the transfer of funds to Brand South Africa in order to inform the international marketing strategy of the country by ongoing monitoring, assessing and analysing national and international media coverage of South Africa. Inventories

We have inventories to the value of R3.616 million.

3. CAPACITY CONSTRAINTS

As mentioned in the Accounting Officer's report of 2010/11, The Presidency continues to face an acute shortage of office accommodation, especially due to the creation of the two new ministries and the resultant need to provide additional support staff to the Ministers. Due to the growing needs of the organisation, The Presidency may be unable to provide adequate office accommodation. The Union Buildings is currently over-capacitated and should all vacant posts for both DPME and The Presidency be filled, the situation would grow to become dire.

The growth within the new ministries and departments has led to a need for additional office accommodation outside the Union Buildings, as this would be the only way in which the additional staff can be brought in. Discussions with the relevant parties are ongoing to finalise this in a cost-effective manner.

The increased IT systems users and over utilisation of the IT infrastructure has impeded the ability of IT to provide effective and efficient services to its primary clients. The sharing of IT network and infrastructure poses potential security risks as The Presidency's network security may be compromised. It is to be noted that such sharing of facilities and resources also extends to the budgetary implications for The Presidency, which could lead to a situation of exceeding budget. The financial implications of the increased operational costs associated with accommodation, commuting of The Presidency staff between Proes Street and the Union Buildings, new parking requirements, annual lease, cleaning, improved IT infrastructure requirements, and security and maintenance costs will need to be visited during the new financial year.

4. UTILISATION OF DONOR FUNDS

There is currently only one donor-funded project, namely the Programme to Support Pro-Poor Policy Development, funded by the European Union. The Presidency spent R3.883 million on the European Union project. The shortfall of R310 476 will be requested from the European Union. The programme had received 80 percent prefinancing of its budget. The European Union requires that the amount of the initial allocation not exceed 80 percent of the total amount of the imprest component of the budget of the programme estimate (work plan). The balance will be paid after an external audit is undertaken. The fieldwork for the external audit is complete and the programme is currently awaiting the draft audit report.

5. PUBLIC ENTITIES

The NYDA was established in terms of the NYDA Act, Act No. 54 of 2008 from the merger of the two youth formations. The NYDA's focus was predominantly to implement the national youth policy 2009-2014 together with other key government programmes such as rural development, anti-poverty strategy and so on. In addition, the NYDA renders services such as the provision of counselling and advice for entrepreneurship, market access and provision of funding for business and skills development. The total funding transferred to the NYDA in the period under review is R374 721 357.

Brand South Africa was transferred from GCIS to The Presidency during the 2011/12 financial year. The purpose of Brand South Africa is to develop and implement an international marketing and communication strategy for South Africa to contribute to job creation and poverty reduction, and attract inward investment, trade and tourism. The total amount transferred to Brand South Africa by The Presidency is R62 453 million.

6. ORGANISATIONS TO WHICH TRANSFER PAYMENTS HAVE BEEN MADE

The Presidency made transfers to both the NYDA and Brand South Africa. The payment to the NYDA was reduced with an amount of R1 289 million due to a payment made by The Presidency on behalf of the NYDA to the Common Wealth. It is to be noted that an amount of R9.8 million was not transferred to NYDA at year end.

7. PUBLIC/PRIVATE PARTNERSHIPS

The Presidency is participating in a public/private partnership (PPP), as a user department, arranged for national government by the national Department of Transport. This agreement is a (transport) full maintenance lease transversal contract regulated by the National Treasury's PPP and Supply Chain Management

Regulations. The Presidency leases short-term, long-term and chauffeur-driven vehicles. The current agreement ended 30 November 2011.

8. CORPORATE GOVERNANCE ARRANGEMENTS

Leadership arrangement - ethics, values, code of conduct

The Presidency has a conflict of interest policy in place. Officials are compelled to disclose any private interest as well as disclose of any conflict of interest, which ensures that officials do not participate in the preparation, negotiation, management or enforcement of an official decision if they have a relevant interest. Officials are also not allowed to undertake or perform any work outside the scope of their employment with The Presidency for which they receive remuneration of any kind without prior approval by the Accounting Officer. The Presidency has also established an administrative process for controlling gifts. Officials are also compelled to disclose gifts, donations and sponsorships granted or received by individuals and on behalf of The Presidency whether in cash or in kind.

Governance of risk

The Presidency has a Risk Management unit which functions under the control and direction of the Risk Management Committee. The committee is governed by the charter, which also articulates its reporting responsibilities to both the Accounting Officer and the Audit Committee. Risk management within The Presidency is guided by the Enterprise Risk Management Framework, which is aligned to National Treasury's guidelines.

During the year under review, the Risk Management unit developed the business management continuity policy and management forum charters in order to contribute to high standards of governance in The Presidency. It has further reviewed the risk management policy, fraud prevention plan, anti-fraud policy and response plan, whistle blowing policy, and; gifts, donations and sponsorships policy. The Risk Management unit further ensured on-going communication and awareness through inductions and communication through intranet and use of display boards.

A strategic gift register was also developed to ensure that material risks to The Presidency are identified and mitigated to acceptable levels thus ensuring that The Presidency continues to achieve its strategic objectives.

TO THE EXECUTIVE AUTHORITY AND PARLIAMENT OF THE REPUBLIC OF SOUTH AFRICA

Governing stakeholder relationships

The President, Deputy President, Ministers and Deputy Ministers all have an approved annual programme that regulates their standardised engagements with important stakeholders including Business and Labour Summit, Presidential Interfaith Summit, engagements with the cultural industry, and involvement on the Eastern Cape Education Task Team, Parliament, National Planning Commissioners, BEE and Presidential Coordinating Councils, SANAC, Human Resource Development Council, Outcome Coordinating Ministers, for instance.

However, over and above this, the Chief Operations Officer has been delegated as the Deputy Information Officer for The Presidency and his offices handles PAIA (2000) requests from various stakeholders in line with the Promotion of Access to Information Act. The Presidency's Manual for Access to Information has been updated and translated into 11 official languages in line with the Promotion of Access to Information. Section 32 Report has been submitted to SAHRC in compliance with PAIA.

Effectiveness of Internal Audit and Audit Committee

The Presidency has an Internal Audit unit which functions under the control and direction of an Audit Committee as per approved Audit Committee Charter. The committee is evaluated on an annual basis by themselves, management and the Auditor-General and for the year under review positive feedback has been received.

During the year under review, Internal Audit functioned according to an approved charter and performed consulting and monitoring progress audits which were approved in the annual operational plan. The Internal Audit unit is independent and no limitation is placed on the access to information. The accountability and reporting structure of the unit is properly established and regular feedback is provided to the Audit Committee.

Treasury Regulation 3.2.6 requires internal audits to be conducted in accordance with standards set by the Institute of Internal Auditors. Recognition is hereby given to Internal Audit for achievement of General Conformance. General Conformance means that the internal audit activity has a charter and policies procedures and processes that are judged to be in accordance with the *International Standards for the Professional Practice of Internal Auditing*.

9. DISCONTINUED ACTIVITIES/ ACTIVITIES TO BE DISCONTINUED

The Presidency has shifted the function of the Presidential Hotline to the DPME.

10. NEW/PROPOSED ACTIVITIES

The DPME is now an established and fully functioning department, with a separate vote.

However, in the year under review, Brand South Africa was moved to The Presidency with the mandate of branding the country within and outside our borders. The imperative that informed the move of Brand South Africa is that the country's brand has to be led by the country's President and Head of State.

11. ASSET MANAGEMENT

The Asset Management unit is still not operating at full capacity due to lack of funding to fill vacant posts within the unit. The very basic requirements in terms of the PFMA and the Treasury regulations relating to asset management reforms have been met. All the assets within The Presidency were physically verified through a stock-take exercise. The asset management policy is continuously revised to be in line with the National Treasury prescripts. The library books have been captured within the fixed assets register as per the National Treasury requirements.

12. INVENTORIES

Not all the inventories procured are kept in stores/warehouses. Only stationery and cleaning materials are kept in stores/warehouses. Other inventories are directly delivered to the users, for example, cutlery.

13. EVENTS AFTER REPORTING DATE

None.

TO THE EXECUTIVE AUTHORITY AND PARLIAMENT OF THE REPUBLIC OF SOUTH AFRICA

14. INFORMATION ON PREDETERMINED OBJECTIVES

The Presidency's strategic planning process, which is in line with Section 40(3)(a) of the PFMA, is cyclical and has four distinct phases, namely:

- · Phase A: Strategic review and planning
- · Phase B: Branch strategic, operational and resource planning
- Phase C: Implementation: Unit planning and individual performance agreements and work plans
- · Phase D: Performance monitoring and evaluation.

This is the process that is in place to report and record the information on predetermined objectives.

However in the past year in order to improve performance reporting and measurement, and address some of the audit findings raised in the previous year. The Presidency embarked on an exercise to firstly align its programme budget structure to its strategic objectives. Secondly, The Presidency revised its Annual Performance Plan for 2011/12 to ensure that all gaps identified in the midterm review were closed, and certain key performance indicators, were rectified to be specific, measurable, achievable, relevant, time bound (SMART).

Aligning the programme budget structure to the strategy

After the transition process in 2009 and the resultant changes that were affected within The Presidency all efforts were made to ensure that the strategic plans are reviewed and aligned to the structures to reflect the new way forward. These changes then required alignment of the programme structure of the budget and performance information to ensure that The Presidency is in a position to meet the reporting requirements as set out in the PFMA.

All the above preparations were done on the basis that the DPME would form part of The Presidency. It was only in February 2010 that we were informed that the President had in fact signed a proclamation in December the previous year that the DPME would be an independent department. During communication with the National Treasury on how The Presidency needs to deal with this change it was then indicated by the National Treasury that the budget process for 2010/11 had been concluded and that the matter would be addressed during the adjustments budget process in 2010.

During the adjustment budgets process in September 2010, The Presidency submitted a request to National Treasury to amend its budget and programme structure for the 2010/11 financial year. The National Treasury in late October reverted back to The Presidency indicating that they are not going to approve the changes requested and that The Presidency revert back to the programme structures as set out in the 2009/10 ENE and that they will only effect the requested changes in the 2011/12 financial year.

In the financial year under review, The Presidency finalised its new budget programme structure, which is effectively aligned to the new strategic direction of the organisation. The Presidency now has three budget programmes.

Submitting a revised Annual Performance Plan for 2011/12

Following the midterm review of the Annual Performance plan 2011/12, The Presidency revised its plan with the aim of ensuring that performance indicators and data be more specific, measurable and time bound. The revised Annual Performance Plan 2011/12 was submitted to parliament on 13 December 2011.

15. SCOPA RESOLUTIONS

No SCOPA resolutions were taken in the year under review.

TO THE EXECUTIVE AUTHORITY AND PARLIAMENT OF THE REPUBLIC OF SOUTH AFRICA

16. PRIOR MODIFICATIONS OF THE AUDIT REPORT

The submissions with financial implications were routed to the office of the Chief Financial Officer to ensure oversight on expenditure.			
 The accounting officer did appropriate steps to prever expenditure as per the requ (ii) of the PFMA and TR 5 	nt and detect irregular nirements of section 38(1)(c)	2009 - 2010 financial year	A monthly report for reporting Irregular cases to the Accounting Officer was introduced. The report is aimed at assisting the accounting officer in applying punitive measures to the offenders; as well as condoning the Irregular expenditure that is within his delegation. A procedure Manual which addresses the process to be followed in the accounting treatment of irregular expenditure was partially developed it will be implemented in 2011/12 financial year.			

REPORT OF THE ACCOUNTING OFFICER

TO THE EXECUTIVE AUTHORITY AND PARLIAMENT OF THE REPUBLIC OF SOUTH AFRICA

17. EXEMPTIONS AND DEVIATIONS RECEIVED FROM THE NATIONAL TREASURY

The National Treasury granted The Presidency an approval in terms of section 12.1.2 of the Treasury regulations for The Presidency to exceed the annual limit of R250 000 for insurance costs. This is due to the increased number of political principals in The Presidency.

18. INTERIM FINANCIAL STATEMENTS

The Department prepared Interim Financial Statements (IFS) on a quarterly basis in line with the prescripts. The statements were audited by the Auditor-General. Based on the findings and the recommendations that were made by the Auditor-General. The department developed intervention strategies to mitigate recurrence of the findings as well as implement the recommendations of the Auditor-General.

19. OTHER

Irregular expenditure

The Presidency Accounting Officer condoned the irregular expenditure for an amount of R709 420.46 for 2011/12.

20. APPROVAL

The Annual Financial Statements set out on pages 103 to 142 have been approved by the acting Accounting Officer.

Dr Batandwa Siswana Chief Operations Officer and Deputy Secretary to Cabinet (Accounting Officer) Date: 31 July 2012

REPORT OF THE AUDITOR-GENERAL

TO PARLIAMENT ON THE FINANCIAL STATEMENTS

REPORT OF THE AUDITOR-GENERAL TO PARLIAMENT ON VOTE NO. 1: THE PRESIDENCY

REPORT ON THE FINANCIAL STATEMENTS

Introduction

1. I have audited the financial statements of The Presidency set out on pages 103 to 135, which comprise the appropriation statement, the statement of financial position as at 31 March 2012, the statement of financial performance, statement of changes in net assets and the cash flow statement for the year then ended, the notes, comprising a summary of significant accounting policies and other explanatory information.

Accounting officer's responsibility for the financial statements

2. The accounting officer is responsible for the preparation of these financial statements in accordance with the departmental financial reporting framework prescribed by the National Treasury and the requirements of the Public Finance Management Act of South Africa, 1999 (Act No. 1 of 1999) (PFMA), and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor-General's responsibility

- 3. My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA), the *General Notice* issued in terms thereof and International Standards on Auditing. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
- 4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the

purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

6. In my opinion, the financial statements present fairly, in all material respects, the financial position of The Presidency as at 31 March 2012, and its financial performance and cash flows for the year then ended in accordance with the Departmental Financial Reporting Framework prescribed by the National Treasury and the requirements of the PFMA.

Emphasis of matters

7. I draw attention to the matter below. My opinion is not modified in respect of this matter.

Restatement of corresponding figures

8. As disclosed in note 17, 18, 27 and 28 to the financial statements, the corresponding figures for 31 March 2011 have been restated as a result of an error discovered during 2012 in the financial statements of The Presidency at, and for the year ended, 31 March 2012.

Additional matter

9. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Financial reporting framework

10. The financial reporting framework prescribed by the National Treasury and applied by the department is a compliance framework. The wording of my opinion on a compliance framework should reflect that the financial statements have been prepared in accordance with this framework. Section 20(2) (a) of the PAA, however, requires me to express an opinion on the fair presentation of the financial statements. The wording of my opinion therefore reflects this requirement.

REPORT OF THE AUDITOR-GENERAL

TO PARLIAMENT ON THE FINANCIAL STATEMENTS

Unaudited supplementary schedules

11. The supplementary information set out on pages 136 to 142 does not form part of the financial statements and is presented as additional information. I have not audited these schedules, accordingly, I do not express an opinion thereon.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

12. In accordance with the PAA and the *General Notice* issued in terms thereof, I report the following findings relevant to performance against predetermined objectives, compliance with laws and regulations and internal control, but not for the purpose of expressing an opinion.

Predetermined objectives

- 13. I performed procedures to obtain evidence about the usefulness and reliability of the information in the report on predetermined objectives of The Presidency for the year ended 31 March 2012 as set out on pages 50 to 65 of the annual report.
- 14. The reported performance against predetermined objectives was evaluated against the overall criteria of usefulness and reliability. The usefulness of information in the annual performance report relates to whether it is presented in accordance with the National Treasury annual reporting principles and whether the reported performance is consistent with the planned objectives. The usefulness of information further relates to whether indicators and targets are measurable and relevant as required by the National Treasury *Framework for managing programme performance information*.

The reliability of the information in respect of the selected programmes is assessed to determine whether it adequately reflects the facts

15. There were no material findings on the annual performance report concerning the usefulness and reliability of the information.

Compliance with laws and regulations

16. I performed procedures to obtain evidence that The Presidency has complied with applicable laws and regulations regarding financial matters, financial management and other related matters. My findings on material non-compliance with specific matters in key applicable laws and regulations as set out in the *General Notice* issued in terms of the PAA are as follows:

Annual financial statements, performance and annual reports

17. The financial statements submitted for auditing were not prepared in accordance with the prescribed financial reporting framework as required by section 40(1) (b) of the Public Finance Management Act. Material misstatements of disclosure items identified by the auditors were subsequently corrected, resulting in the financial statements receiving an unqualified audit opinion.

Procurement and contract management

- 18. Contracts and quotations were awarded to bidders who did not submit a declaration on whether they are employed by the state or connected to any person employed by the state, which is prescribed in order to comply with Treasury Regulation 16A8.3.
- 19. Contracts and quotations were awarded to bidders who did not submit a declaration of past supply chain practices such as fraud, abuse of SCM system and non-performance, which is prescribed in order to comply with Treasury Regulation 16A9.1.
- 20. The preference point system was not applied in all procurement of goods and services above R30 000 as required by section 2(a) of the Preferential Procurement Policy Framework Act and Treasury Regulations 16A6.3(b).

Human resource management and compensation

- 21. Funded vacant posts were not all filled within 12 months as required by Public Service Regulation 1/VII/C.1A.2.
- 22. Persons in charge at pay points did not always certify that the employees receiving payment were entitled thereto as required by Treasury Regulation 8.3.4.
- 23. Not all senior managers did have signed performance agreements for the year under review as required by Public Service Regulation 4/III/B.1.

Expenditure management

24. Contractual obligations and money owed by The Presidency were not settled within 30 days or an agreed period, as required

REPORT OF THE AUDITOR-GENERAL

TO PARLIAMENT ON THE FINANCIAL STATEMENTS

- by section 38(1)(f) of the Public Finance Management Act and Treasury Regulation 8.2.3.
- 25. The accounting officer did not take reasonable steps to prevent irregular expenditure, as required by section sections 38(1)(c) (ii) of the PFMA and Treasury Regulation 9.1.1.

Internal control

27. I considered internal control relevant to my audit of the financial statements report on predetermined objectives of The Presidency and compliance with laws and regulations. The matters reported below under the fundamentals of internal control are limited to the significant deficiencies that resulted in the findings on compliance with laws and regulations included in this report.

Leadership

26. The leadership did not exercise adequate oversight responsibility regarding financial reporting and compliance with laws and regulations.

Financial and performance management

27. Inadequate monitoring by supervisors resulted in material misstatements in the financial statements and non-compliance with laws and regulations.

Governance

28. The Presidency did not conduct a proper risk assessment to identify emerging risk regarding accurate and complete financial reporting and compliance with laws and regulations.

Auditor - yene al

NOTES TO THE APPROPRIATION STATEMENT

FOR THE YEAR ENDED 31 MARCH 2012

1. DETAIL OF TRANSFERS AND SUBSIDIES AS PER APPROPRIATION ACT (AFTER VIREMENT):

Detail of these transactions can be viewed in the note on Transfers and subsidies, disclosure notes and Annexure 1 (A-F) to the Annual Financial Statements.

2. DETAIL OF SPECIFICALLY AND EXCLUSIVELY APPROPRIATED AMOUNTS VOTED (AFTER VIREMENT):

Detail of these transactions can be viewed in note 1 (Annual Appropriation) to the Annual Financial Statements.

3. DETAIL ON PAYMENTS FOR FINANCIAL ASSETS

Detail of these transactions per programme can be viewed in the note on Payments for financial assets to the Annual Financial Statements.

4. EXPLANATIONS OF MATERIAL VARIANCES FROM AMOUNTS VOTED (AFTER VIREMENT):

4.1 Per Programme	Final Appropriation	Actual Expenditure	Variance R'000	Variance as a % of Final Appropriation
Programme 1	405 451	397 412	8 039	2%
Programme 2	78 442	69 621	8 821	11%
Programme 3	447 017	437 174	9 843	2%

4.2 Per Economic classification	Final Appropriation	Actual Expenditure	Variance	Variance as a % of Final Appropriation
	R'000	R'000	R'000	R'000
Current payments				
Compensation of employees	245 701	234 330	11 371	5%
Goods and services	228 136	226 848	1 288	1%
Transfers and subsidies				
Provinces and municipalities	15	15	-	-
Departmental agencies and accounts	447 017	437 174	9 843	2%
Households	647	647	-	-
Payments for capital assets				
Machinery and equipment	8 768	4 567	4 201	48%
Payments for financial assets	626	626	-	-

The savings are due to:

- · Vacant posts not filled
- · Furniture not purchased as the refurbishment of offices was not completed
- · The under spending on the National Youth Development Agency was due to the inadvertent interpretation of source documents.

ACCOUNTING POLICIES

The Financial Statements have been prepared in accordance with the following policies, which have been applied consistently in all material aspects, unless otherwise indicated. However, where appropriate and meaningful, additional information has been disclosed to enhance the usefulness of the Financial Statements and to comply with the statutory requirements of the Public Finance Management Act, Act 1 of 1999 (as amended by Act 29 of 1999), and the Treasury Regulations issued in terms of the Act and the Division of Revenue Act, Act 1 of 2010.

1. PRESENTATION OF THE FINANCIAL STATEMENTS

1.1 Basis of preparation

The Financial Statements have been prepared on a modified cash basis of accounting, except where stated otherwise. The modified cash basis constitutes the cash basis of accounting supplemented with additional disclosure items. Under the cash basis of accounting transactions and other events are recognised when cash is received or paid.

1.2 Presentation currency

All amounts have been presented in the currency of the South African Rand (R) which is also the functional currency of the department.

1.3 Rounding

Unless otherwise stated all financial figures have been rounded to the nearest one thousand Rand (R'000).

1.4 Comparative figures

Prior period comparative information has been presented in the current year's financial statements. Where necessary figures included in the prior period financial statements have been reclassified to ensure that the format in which the information is presented is consistent with the format of the current year's financial statements.

1.5 Comparative figures - Appropriation Statement

A comparison between actual amounts and final appropriation per major classification of expenditure is included in the Appropriation Statement.

2. **REVENUE**

2.1 Appropriated funds

Appropriated funds comprises of departmental allocations as well as direct charges against revenue fund (i.e. statutory appropriation).

Appropriated funds are recognised in the financial records on the date the appropriation becomes effective. Adjustments made in terms of the adjustments budget process are recognised in the financial records on the date the adjustments become effective.

Unexpended appropriated funds are surrendered to the National/ Provincial Revenue Fund. Any amounts owing to the National/ Provincial Revenue Fund at the end of the financial year are recognised as payable in the statement of financial position.

Any amount due from the National/Provincial Revenue Fund at the end of the financial year is recognised as a receivable in the statement of financial position.

2.2 Departmental revenue

All departmental revenue is recognised in the statement of financial performance when received and is subsequently paid into the National/Provincial Revenue Fund, unless stated otherwise.

Any amount owing to the National/Provincial Revenue Fund at the end if the financial year is recognised as a payable in the statement of financial position.

No accrual is made for amounts receivable from the last receipt date to the end of the reporting period. These amounts are however disclosed in the disclosure notes to the annual financial statements.

2.3 Direct Exchequer receipts

All direct exchequer receipts are recognised in the statement of financial performance when the cash is received and is subsequently paid into the National/Provincial Revenue Fund, unless stated otherwise.

Any amount owing to the National/Provincial Revenue Funds at the end of the financial year is recognised as a payable in the statement of financial position.

ACCOUNTING POLICIES FOR THE YEAR ENDED 31 MARCH 2012

2.4 Direct Exchequer payments

All direct exchequer payments are recognised in the statement of financial performance when final authorisation for payment is effected on the system (by no later than 31 March of each year).

2.5 Aid assistance

Aids assistance is recognised as revenue when received

All in-kind aid assistance is disclosed at fair value on the date of receipt in the annexures to the Annual Financial Statements

The cash payments made during the year relating to aid assistance projects are recognised as expenditure in the statement of financial performance when final authorisation for payments is effected on the system (by no later than 31 March of each year)

The value of the assistance expensed prior to the receipt of funds is recognised as a receivable in the statement of financial position.

Inappropriately expensed amounts using aid assistance and any unutilised amounts are recognised as payables in the statement of financial position.

3. EXPENDITURE

3.1 Compensation of employees

3.1.1 Salaries and wages

Salaries and wages are expensed in the statement of financial performance when the final authorisation for payment is effected on the system (by no later than 31 March of each year).

Other employee benefits that give rise to a present legal or constructive obligation are disclosed in the disclosure notes to the financial statements at its face value and are not recognised in the statement of financial performance or position.

Employee costs are capitalised to the cost of a capital project when an employee spends more than 50% of his/her time on the project. These payments form part of expenditure for capital assets in the statement of financial performance.

3.1.2 Social contributions

Employer contributions to post employment benefit plans in respect of current employees are expensed in the statement of financial performance when the final authorisation for payment is effected on the system (by no later than 31 March of each year).

No provision is made for retirement benefits in the financial statements of the department. Any potential liabilities are disclosed in the financial statements of the National Revenue Fund and not in the financial statements of the employer department.

Employer contributions made by the department for certain of its ex-employees (such as medical benefits) are classified as transfers to households in the statement of financial performance.

3.2 Goods and services

Payments made during the year for goods and/or services are recognised as an expense in the statement of financial performance when the final authorisation for payment is effected on the system (by no later than 31 March of each year).

The expense is classified as capital if the goods and/or services were acquired for a capital project or if the total purchase price exceeds the capitalisation threshold (currently R5, 000). All other expenditures are classified as current.

Rental paid for the use of buildings or other fixed structures is classified as *goods and services* and not as *rent on land*.

3.3 Interest and rent on land

Interest and rental payments are recognised as an expense in the statement of financial performance when the final authorisation for payment is effected on the system (by no later than 31 March of each year). This item excludes rental for the use of buildings or other fixed structures. If it is not possible to distinguish between payment for the use of land and the fixed structures on it, the whole amount should be recorded under goods and services.

3.4 Payments for financial assets

Debts are written off when identified as irrecoverable. Debts written-off are limited to the amount of savings and/or under spending of appropriated funds. The write off occurs at year-end or when funds are available. No provision is made for irrecoverable

ACCOUNTING POLICIES

amounts but an estimate is included in the disclosure notes to the financial statements amounts.

All other losses are recognised when authorisation has been granted for the recognition thereof.

3.5 Transfers and subsidies

Transfers and subsidies are recognised as an expense when the final authorisation for payment is effected on the system (by no later than 31 March of each year).

3.6 Unauthorised expenditure

When confirmed unauthorised expenditure is recognised as an asset in the statement of financial position until such time as the expenditure is either approved by the relevant authority, recovered from the responsible person or written off as irrecoverable in the statement of financial performance.

Unauthorised expenditure approved with funding is derecognised from the statement of financial position when the unauthorised expenditure is approved and the related funds are received.

Where the amount is approved without funding it is recognised as expenditure in the statement of financial performance on the date of approval.

3.7 Fruitless and wasteful expenditure

Fruitless and wasteful expenditure is recognised as expenditure in the statement of financial performance according to the nature of the payment and not as a separate line item on the face of the statement. If the expenditure is recoverable it is treated as an asset until it is recovered from the responsible person or written off as irrecoverable in the statement of financial performance.

3.8 Irregular expenditure

Irregular expenditure is recognised as expenditure in the statement of financial performance. If the expenditure is not condoned by the relevant authority it is treated as an asset until it is recovered or written off as irrecoverable.

4. ASSETS

4.1 Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at cost.

Bank overdrafts are shown separately on the face of the statement of financial position.

For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held, other short-term highly liquid investments and bank overdrafts.

4.2 Other financial assets

Other financial assets are carried in the statement of financial position at cost.

4.3 Prepayments and advances

Amounts prepaid or advanced are recognised in the statement of financial position when the payments are made and are derecognised as and when the goods/services are received or the funds are utilised.

Prepayments and advances outstanding at the end of the year are carried in the statement of financial position at cost.

4.4 Receivables

Receivables included in the statement of financial position arise from cash payments made that are recoverable from another party (including departmental employees) and are derecognised upon recovery or write-off.

Receivables outstanding at year-end are carried in the statement of financial position at cost plus any accrued interest. Amounts that are potentially irrecoverable are included in the disclosure notes.

4.5 Inventory

Inventories that qualify for recognition must be initially reflected at cost. Where inventories are acquired at no cost, or for nominal consideration, their cost shall be their fair value at the date of acquisition.

ACCOUNTING POLICIES FOR THE YEAR ENDED 31 MARCH 2012

All inventory items at year-end are reflected using the weighted average cost or FIFO cost formula.

4.6 Capital assets

4.6.1 Movable assets

Initial recognition

A capital asset is recorded in the asset register on receipt of the item at cost. Cost of an asset is defined as the total cost of acquisition. Where the cost cannot be determined accurately, the movable capital asset is stated at fair value. Where fair value cannot be determined, the capital asset is included in the asset register at R1.

All assets acquired prior to 1 April 2002 are included in the register at R1.

Subsequent recognition

Subsequent expenditure of a capital nature is recorded in the statement of financial performance as "expenditure for capital assets" and is capitalised in the asset register of the department on completion of the project.

Repairs and maintenance is expensed as current "goods and services" in the statement of financial performance.

4.6.2 Immovable assets

Initial recognition

A capital asset is recorded on receipt of the item at cost. Cost of an asset is defined as the total cost of acquisition. Where the cost cannot be determined accurately, the immovable capital asset is stated at R1 unless the fair value for the asset has been reliably estimated.

Subsequent recognition

Work-in-progress of a capital nature is recorded in the statement of financial performance as "expenditure for capital assets". On completion, the total cost of the project is included in the asset register of the department that is accountable for the asset.

Repairs and maintenance is expensed as current "goods and services" in the statement of financial performance.

4.6.3 Intangible assets

Initial recognition

An intangible asset is recorded in the asset register on receipt of the item at cost. Cost of an intangible asset is defined as the total cost

of acquisition. Where the cost cannot be determined accurately, the intangible asset is stated at fair value. Where fair value cannot be determined, the intangible asset is included in the asset register at R1.

All intangible assets acquired prior to 1 April 2002 can be included in the asset register at R1.

Subsequent expenditure

Subsequent expenditure of a capital nature is recorded in the statement of financial performance as "expenditure for capital asset" and is capitalised in the asset register of the department.

Maintenance is expensed as current "goods and services" in the statement of financial performance.

5. LIABILITIES

5.1 Payables

Recognised payables mainly comprise of amounts owing to other governmental entities. These payables are carried at cost in the statement of financial position.

5.2 Contingent liabilities

Contingent liabilities are included in the disclosure notes to the financial statements when it is possible that economic benefits will flow from the department, or when an outflow of economic benefits or service potential is probable but cannot be measured reliably.

5.3 Contingent assets

Contingent assets are included in the disclosure notes to the financial statements when it is probable that an inflow of economic benefits will flow to the entity.

5.4 Commitments

Commitments are not recognised in the statement of financial position as a liability or as expenditure in the statement of financial performance but are included in the disclosure notes.

5.5 Accruals

Accruals are not recognised in the statement of financial position as a liability or as expenditure in the statement of financial performance but are included in the disclosure notes.

ACCOUNTING POLICIES FOR THE YEAR ENDED 31 MARCH 2012

5.6 Employee benefits

Short-term employee benefits that give rise to a present legal or constructive obligation are disclosed in the disclosure notes to the financial statements. These amounts are not recognised in the statement of financial performance or the statement of financial position.

5.7 Lease commitments

Finance lease

Finance leases are not recognised as assets and liabilities in the statement of financial position. Finance lease payments are recognised as an expense in the statement of financial performance and are apportioned between the capital and interest portions. The finance lease liability is disclosed in the disclosure notes to the financial statements.

Operating lease

Operating lease payments are recognised as an expense in the statement of financial performance. The operating lease commitments are disclosed in the disclosure notes to the financial statement.

5.8 Impairment

The department tests for impairment where there is an indication that a receivable, loan or investment may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. An estimate is made for doubtful loans and receivables based on a review of all outstanding amounts at year-end. Impairments on investments are calculated as being the difference between the carrying amount and the present value of the expected future cash flows/service potential flowing from the instrument.

5.9 Provisions

Provisions are disclosed when there is a present legal or constructive obligation to forfeit economic benefits as a result of events in the past and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made.

6. RECEIVABLES FOR DEPARTMENTAL REVENUE

Receivables for departmental revenue are disclosed in the disclosure notes to the annual financial statements.

7. NET ASSETS

7.1 Capitalisation reserve

The capitalisation reserve comprises of financial assets and/or liabilities originating in a prior reporting period but which are recognised in the statement of financial position for the first time in the current reporting period. Amounts are recognised in the capitalisation reserves when identified in the current period and are transferred to the National/Provincial Revenue Fund when the underlying asset is disposed and the related funds are received.

7.2 Recoverable revenue

Amounts are recognised as recoverable revenue when a payment made in a previous financial year becomes recoverable from a debtor in the current financial year. Amounts are either transferred to the National/Provincial Revenue Fund when recovered or are transferred to the statement of financial performance when writtenoff.

8. RELATED PARTY TRANSACTIONS

Specific information with regards to related party transactions is included in the disclosure notes.

9. KEY MANAGEMENT PERSONNEL

Compensation paid to key management personnel including their family members where relevant, is included in the disclosure notes.

10. PUBLIC/PRIVATE PARTNERSHIPS

A description of the PPP arrangement, the contract fees and current and capital expenditure relating to the PPP arrangement is included in the disclosure notes.

ANNUAL APPROPRIATION 1.

1.1 Annual Appropriation

DISCLOSURE NOTES TO THE ANNUAL FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2012

27. RELATED PARTY TRANSACTIONS

The following are related parties to the Ministers in The Presidency:

Minister of Performance Monitoring and Evaluation as well as administration:

- The Department of Performance Monitoring and Evaluation: The Presidency received an amount of R2,46 million from Department of Performance Monitoring and Evaluation for payments made by The Presidency on behalf of the Department of Performance Monitoring and Evaluation for accruals and commitments for 2010/11 financial year.
- · Government Communications and Information Systems (Including the Media Development and Diversity Agency)
- · Brand South Africa

Note: Related party transaction relates to payments received by The Presidency for accruals/commitments incurred during 2010/11 financial year and claimed back from the Department of Performance Monitoring and Evaluation as well as for expenses related to shared services.

Minister of the National Planning Commission:

· Statistics South Africa

Department of Public Works provides office space for The Presidency at 535 Johannes Ramokgoase Street free of charge. The total amount paid by the Department of Public Works for 2011/12 is R5,121 million and for 2010/11 is R3,744 million.

The President furthermore receives support from various government departments as part of their legislative mandate.

The prior period financial figures have been reclassified to ensure that it is consistent with the format of the current year financial figures.

Total		53 212	62 173		

The prior period financial figures have been reclassified to ensure that it is consistent with the format of the current year financial figures.

29. PUBLIC PRIVATE PARTNERSHIP

This agreement is a full maintenance lease transversal contract regulated by the national Treasury PPP and supply chain management regulations. The Presidency leases short-term, long term and chauffeur and point-to-point driven services. The service level agreement signed with the service provider clearly stipulates the service levels that must be adhered to and the time frame within which such service is to be booked by the department. The contract term is five years. At the end of the five years the only thing that reverts to government is the information relating to the fleet service. Assets will not be transferred to Government. The following services are provided in the contract:

- Long term fleet rental (five years),
- Short-term fleet rental (day to day),
- Short-medium term fleet rental (more than a month but less than a year),
- 24/7 call centre, internet based system with an electronic log book,
- Chauffeur and point-to-point driven services,
- Fuel management services, Fuel management system,
- Vehicle tracking device for long-term and short-medium term rental,
- Classroom-based driver training and
- Fleet consultancy services
